CHAPTER II

Preventive and Detective Organisation

2.1. *Principles of the Criminal Law and Police Organisation*—The Criminal Law of India and the Police Organization, which is based upon it, are both founded on the principle that public order depends essentially upon the responsibility of every member of the community within the law to prevent offences and to arrest offenders. The magisterial and police organization is set up to enforce, control and assist this general responsibility. This fundamental principle must be thoroughly understood and borne constantly in mind by Police Officers of all ranks.

The ideal to be aimed at in respect of relations with the public is that every police officer, of whatever rank, should be regarded by every law.

abiding person as a wise and impartial friend and a protector against injury to his person and property. In proportion as this deal is approached, the police will receive the information and assistance which they need in order to combat crime successfully. When confidence and co-operation are lacking, private persons and village officials resort to connivance at crime and to seeking redress for their own losses through treaty with criminals the police are isolated in their efforts to prevent and detect offences, and can hope for but a small measure of success.

The proper relations between the police and the public in a district depend primarily upon the personal attitude of the Superintendent, and the example set by him and enforced upon his subordinates. The most important duties of a Superintendent are to know the people of his district & to know what his subordinates are doing such knowledge can only be gained by the fullest personal accessibility activity in touring, thorough and intelligent supervision and a sympathetic interest in the life of the district and the facts and difficulties of the work of his own men. He must inspire confidence in his subordinates, as well as in the public. While alert to check tyranny, dishonesty and other abuses by his subordinates, he must be as accessible to them as to non-officials and ready at all times to help them in their difficulties and support them against the evil influences, which they have to face. This should be the attitude of all supervising officers. They should ensure direct access to themselves unimpeded by their Subordinates, and must be ready to give a patient hearing to all complaints and grievances, but must avoid creating any impression of spying, which would destroy the confidence and undermine the authority of their officers.

2.2. Sub-Divisional Magistrate, Relations with—The relations between the Sub-Divisional Magistrate and Police officers with whom he has to deal should be both cordial and intimate, and every opportunity shall be taken to keep him informed of the state of crime in his ilaqa. Conferences between Magistrates and Police Officers, at which difficulties on either side can be discussed and remedies devised, should be encouraged; police officers coming in with challans should take the opportunity of obtaining an interview with the Sub-Divisional Magistrate and discussing with him the state of crime in their jurisdictions.

2.3. Panchas and Village Watchmen—The Code of Criminal Procedure prescribes definite duties in respect of reporting and preventing offences in case of members of Panchayats and Watchmen of villages. It is the duty of the Gazetted Police Officers to take particular note of the work of the village officials namely members of Panchayats, Village Watchmen. They should be encouraged in the performance of their duties and suitably rewarded when they do well. Serious or persistent negligence of duty should be brought to the notice of the Superintendent of police in the periodic inspections of the Police Stations mention shall always be made of the degree of assistance received by the police from village officials of his jurisdiction and of particularly meritorious work or note-worthy dereliction of duty on the part of individuals.

2.4. Duties of Police under local and special laws—Many of the most important and most frequently exercised functions of the police derive from local and special laws. In some cases powers so derived have been specially referred to in different chapters of these rules, but irrespective of such references, a knowledge of the provisions of all local and special laws, more or less comprehensive according to the duties of his rank, is required of every trained police officer.

2.5. Absconders and harbourers—A vital factor in both the detection and prevention of crime is the execution of the law in respect of absconding and harbouring. The provisions of the law are adequate to prevent both these offences but their proper and comprehensive administration demands the constant attention of magistrates and supervising police officers. The absence or prevalence of absconding and harbouring are among the acid tests of the efficiency of the criminal administration. Instructions as to the taking out an execution of warrant when persons, whose arrest is required, are not immediately found, are contained in rule 7.5. This is the first essential. Under Section 87, Code of Criminal Procedure any court may at any time issue a proclamation against a person for whose arrest that court has issued a warrant. All that is necessary is that the court should be satisfied not necessarily by evidence, that the said person "has absconded or is concealing himself so that such warrant cannot be executed." The court may further at any time after proclamation "order the attachment of any property, movable or immovable, or both, belonging to the proclaimed person." The period of thirty days mentioned in section 87, Code of Criminal Procedure, is that within which the absconder is called upon to surrender; it imposes no delay on the issue of attachment orders. The issue of a proclamation under Section 87, Code of Criminal Procedure, renders liable to the penalties of Section 216, Indian Penal Code, any one who gives to the person proclaimed any assistance of the nature described in section 52-A, Indian Penal Code.

(2) The action prescribed in rule 7.5 for obtaining a warrant of arrest shall be taken by the police immediately they have grounds for making such arrest. Every reasonable effort to execute such warrant shall then be taken. If such efforts fail the court which issued the warrant must be satisfied that the warrant cannot be executed; evidence of the guilt of the wanted man in the offence under investigation is not required. When a proclamation order has been obtained, the police are bound to publish that order as required by Section 87 (2), Code of Criminal Procedure. Immediately this has been done the requirements of section 87 (4) Code of Criminal Procedure, shall be complied with. Thereupon, the person wanted becomes a "proclaimed offender" and the rules in Chapter IV regarding the entry of such persons name in the surveillance register, list of proclaimed offenders. Notices to village Panchas and Watchmen of all places where he has connections or which he is likely to visit etc. shall be forthwith complied with.

(3) The procedure of search under warrant and proclamation shall be carried out in every case in which a wanted person cannot be immediately arrested without warrant by the investigating officer. Discretion may be exer-

cised by both the police and magistrates whether to proceed with attachment of property under section 88, Code of Criminal Procedure. In every case where there is a danger of more crime resulting from an absconder remaining at large an attachment order shall be immediately applied for. The police are not authorised to carry out attachment, but it is the duty of the prosecuting branch to see that the necessary orders issued from the court without any delay, and of the officer conducting investigation to take steps to prevent the improper alienation of attachable property by fictitious mortgage or sale. For this purpose lists of such property should be made, as part of the investigation, and attached to the police file of the case, and the village watchmen and Surpanch should be directed to report any attempt at alienation or removal pending the issue of attachment order. The lists of property prepared by the investigating officer, attested by competent witnesses, should be put into court with the application for an attachment order.

(4) To prevent harbouring, without which no absconder can remain at large, thorough publicity in regard to the issue of a warrant and subsequent proclamation order is essential. If this receives proper attention, the defence of ignorance is denied to the person who can be proved to have rendered any sort of assistance to an absconder.

2.6. Reports and records—In order that continuity in the method of administration outlined in rule 2.1 may not be lost owing to changes of personnel, the proper maintenance of these reports, records and notes which review the history of the criminal administration of a district, or from which information regarding individuals and past event may be obtained, is essential. Apart from personal records of police officers, police station records and inspection notes, referred to in other chapters of these rules, such records comprise:—

- (i) Transfer of charge memoranda (rule 2.7)
- (ii) Confidential note books (rule 2.8)
- (iii) Weekly diary (rule 2.9 et seq.)
- (iv) Monthly crime report (rule 2.12)
- (v) Annual Police Administration Reports (rule 2.1)
- (vi) Reports on political events or meetings (rule 2.14)
- (vii) Reports on important fairs and festivals (rule 2.15)

2.7. Transfer of charge memoranda—(1) Every Superintendent and Deputy Inspector General shall before leaving a district or range on transfer, or otherwise record a memorandum containing all necessary information for the guidance of his successor and for the preparation of the annual administration report.

(2) The following are some of the matters to be attended to in taking over charge of a district and in preparing the memorandum mentioned in sub-rule (1) above:

- (a) State of contingent allotments, and adequacy or inadequacy under different heads of the budget;

- (b) Additional police, existing and proposed;

2.8. Confidential book—There being many matters connected with the police administration of a district which find no place in office registers, and a record of which is necessary, both for the Superintendent's own information and for the benefit of succeeding officers, every Superintendent shall maintain a "confidential note-book". The details given below shall, among others, find a place in this note-book. Each successive Superintendent adding to and revising, in his own notes, the information on record; and Deputy Inspectors General shall, at their inspections, examine the books and comment on the adequacy or otherwise of the notes recorded. The book shall be in two parts as below:—

PART I

- (a) Villages specially notorious for the bad character of their inhabitants.
- (b) Names of village officials who have come prominently to notice, with brief notes regarding them.

An index to the contents in Part I shall be maintained on the first page, as many pages as may be considered necessary being allotted to each subject. Subject to the above rules the information may be recorded by

Superintendents in any form they deem most convenient. It should be as concise as possible, a reference being given to other files or previous papers for more detailed informations.

PART II

Part II shall be in the form of a permanent file containing the making over charge memoranda referred to in rule 2.7.

The briefer a report the better it is, if it includes all that is necessary to show an intelligent comprehension of the meaning of the facts and figures and of the salient features of the year's work. The object of the report is to state what has been done rather than to suggest what should be done. Matters of the latter nature should be reported in a separate official letter. Any such comment or suggestion which is considered necessary in the annual report should be as brief as possible, specially where the matter is complicated or controversial.

As soon as any such movement shows signs of developing on lines which are likely to cause animosity between sections of the people and breaches of the peace, or to be otherwise clearly subversive of law and order, the Superintendent in consultation with the District Magistrate, shall take such action as may be most appropriate to the occasion; but when the activity is political rather than communal and no orders of Government cover the case, ordinarily a reference should be made to Government before measures to check it are set in motion. Police officers of all ranks are required to refrain absolutely from personal participation in political or communal affairs, they are not concerned with the merits of such controversies, but solely with the maintenance of the public peace. In the category of personal participation, however, acquaintance and maintenance of touch with communal leaders is not included. (3) Within the limits of his charges he is the chief investigating officer and as such he shall conduct all investigations in person, so far as circumstances permit. His responsibility in this matter must be carefully maintained. Should it be necessary, owing to the absence of the Sub-Inspector or any other cause, for a subordinate to undertake an investigation, the Sub-Inspector shall satisfy himself by pursuing the case diary and questioning the investigating officer that the investigation has been fully and properly conducted, shall remedy what is defective, and take over the investigation as soon as he is free to do

An Assistant Sub-Inspector is the Assistant and deputy of the officer Incharge of the Police Station, who, without detracting from his own authority or ultimate responsibilities as described in rule 31 may delegate powers and duties generally or specifically to one or other of his assistants, on the same principles as the Superintendents of Police delegates authorities and duties to Gazetted Officers subordinate to him.

(2) An Assistant Sub-Inspector is required to have approximately the same standard of efficiency in all branches of Police Station work, detective, preventive and administrative, as a Sub-Inspector, but his responsibilities are less, in that he is not in independent charge, and his powers are subject to the detailed control and supervision of the Sub-Inspector. In respect of investigations, the Sub-Inspector is required to exercise careful supervision over the work of his Assistant Sub-Inspector, as laid down in rule 3.1, but need not, and should not, normally take into his own hand an investigation started by an Assistant Sub-Inspector, except when he finds the latter's investigation gravely defective.

He prepares the monthly acquaintance rolls and accounts of deductions and stoppages from pay and all travelling allowance and other claims of the officers and men of the station concerned, and sees that acquaintance rolls are duly signed and forwarded. Special reports of forgeries of currency notes, or of the appearance of forged currency notes, of less than Rs. 10/- in value are not required in the case of old forgeries which have come to notice before and have appeared in the list printed in the Criminal Intelligence Gazette, but a list of the presentation of all such forgeries of notes of less than Rs. 10/- in value should be submitted on the first of each month, together with the notes in question, to the Master, Indian Security Press, Currency Note Press, Nasik Road, through the Criminal Investigation Department.

5.14. Continuation and final reports.—(1) Each successive special report in the same case shall bear the same number as the first report and shall be distinguished by the addition of a capital Roman letter in the order of the alphabet.

Illustration.—The first special report of the murder of X is No. 20. The next special report shall be numbered 20 A, the next 20 B and so on.

(2) Successive special reports shall be submitted regularly as prescribed from time to time.

(3) A final report shall be submitted without delay in all cases when (a) the investigation is dropped or (b) the case is finally decided in court.

5.15. Record of Special Reports.—A separate file shall be opened for each case and should be regularly checked.

CHAPTER VI

Investigation

6.1. Power to investigate.—(1) An officer in charge of a police station is empowered by section 156, Criminal Procedure Code, to investigate any cognizable offence which occur within the limits of his jurisdiction.

(2) He is also empowered under section 157(1), Criminal Procedure Code, to depute a subordinate to proceed to the spot to investigate the facts and circumstances of the case and, if necessary, to take measures for the discovery and arrest of the offender. Any police officer may be so deputed under this section, but where a police officer below the rank of assistant sub-inspector is deputed the investigation shall invariably be taken up and completed by the officer incharge of the police station or an assistant sub-inspector at the first opportunity.

(3) An officer incharge of a station shall also render assistance whenever required to all officers of the Criminal Investigation Department working within his jurisdiction.

6.2. Powers of Investigating officers.—(1) The powers and privileges of a police officer making an investigation are detailed in sections 160 to 175, Criminal Procedure Code.

An officer so making an investigation shall invariably issue an order in writing in Form 6.2 (1) to any person summoned to attend such investigation and shall endorse on the copy of the order retained by the person so summoned the date and time of his arrival at, and the date and time of his departure from the place to which he is summoned. The duplicate of the order shall be attached to the case diary.

(2) No avoidable trouble shall be given to any person from whom enquiries are made and no person shall be unnecessarily detained.

(3) It is the duty of an investigating officer to find out the truth of the matter under investigation. His object shall be to discover the actual facts of the case and to arrest the real offender or offenders. He shall not commit himself prematurely to any view of the facts for or against any person.

6.3 Action when offence occurring in another police Station is reported.—When the occurrence of a cognizable offence in another police station jurisdiction is reported, the fact shall be recorded, in the daily diary and information shall be sent to the officer incharge of the police station in the jurisdiction of which the offence was committed. Meanwhile all possible lawful measures shall be taken to secure the arrest of the offender and the detection of the offence.

6.4. Where offence appears to have occurred in other Police Station.—

(1) If a police officer, after registering a case and commencing an investigation discovers that the offence was committed in the jurisdiction of another police station he shall at once send information to the officer incharge of such police station.

(2) Upon receipt of information such officer shall proceed without delay to the place where the investigation is being held and undertake the investigation.

6.5. Disputes as to jurisdiction.—Should the officer who is thus summoned to the spot dispute the jurisdiction, both officers shall jointly carry

on the investigation under the orders of the senior officer and neither shall leave until the question of jurisdiction has been settled and acknowledged. The case record shall be kept at the police station where the information was first received until the question of jurisdiction has been decided.

6.6. Relieving and relieved officers to sign case diaries.—When a police officer is relieved in the course of an investigation he shall record a report of all that he has done in a case diary and sign it, giving the date and hour of his relief. Such case diary shall be made over to the relieving officer who shall certify thereon that he acknowledges the case to have occurred within his station limits, or to be one which he is empowered to investigate, as the case may be.

6.7. Cancellation of a case in one Police Station and registration in another.—When a case is transferred from one police station to another, the offence registered in the original police station shall be cancelled by the Superintendent and a first information report shall be submitted from the police station in the jurisdiction of which the case occurred.

6.8. Cases which may be lawfully investigated in more local areas than one—(1) If the case is one which the officer in charge of the police station may lawfully investigate, but which may also be lawfully and more successfully investigated in another police station, such officer while continuing his investigation, shall refer the matter to the Superintendent who shall transfer the case or not as he sees fit.

(2) If it is desired to transfer the case to a police station in another district, the Superintendent shall refer the matter to the Deputy Inspector General.

(3) When an investigation has been transferred from one district to another the police files with original first information report shall be forwarded to the Superintendent of the district to which the transfer is made.

6.9. Optional investigation.—(1) Section 157 (b), Criminal Procedure Code, gives wide powers to an officer in charge of a police station to refrain from investigation in unimportant cases. It is the duty, however, of every officer receiving a report to consider not only the intrinsic importance of the offence alleged and the expressed wishes of the complainant but the bearing which the report has or may have on the detection of other cases or on the prevention of crime and the control of criminals. Very many cases which appear trivial in themselves, may, if investigated furnish a clue to the operations of professional criminals or afford valuable material at a later date for preventive action. In practice it is seldom advisable for an officer in charge of a police station to avail himself of the power to refuse investigations, which the law gives him.

(2) When, at the time when a report of a cognizable offence is received, the investigating staff of the police station concerned is already occupied with more important cases, the investigation of which would suffer by being interrupted, such report shall be duly recorded and investigation

may be dispensed with. Such action shall not be held to limit the discretion of the officer in charge of the police station to investigate the case at the later date, if he thinks it desirable to do so.

(3) If the informant is present when the first information report is recorded, he shall be informed forthwith that no investigation will be made, and, after noting this fact in the first information report, his signature or thumb-mark shall be taken on it. If the informant is not present, he shall be informed in writing by postcard, or by the delivery of a notice by hand, and the fact that this has been done shall be noted in the first information report.

(4) When investigation is dispensed with, a note shall be made in the first information report stating whether the complainant desires an investigation or not and full reasons shall be given for abstaining from investigation. All such cases shall be brought promptly to the notice of the Circle Officer, who shall pass such orders on them as he may think fit in accordance with the principle embodied in this rule.

6.10. Immediate despatch of an officer to the spot.—When report of cognizable case is recorded and it is decided not to dispense with investigation under section 157 (b), Criminal Procedure Code, a police officer shall proceed to the scene immediately. The officer who first proceeds to the spot, shall, if he be not competent to complete the investigation, take all possible steps to preserve the scene of the crime from disturbance, to record particulars of and secure the presence of potential witnesses, obtain information relating to the case and arrest the culprit.

6.11. Investigation in non-cognizable cases.—(1) No police officer shall investigate a non-cognizable offence unless ordered to do so by a competent magistrate under section 196-B or 202, Criminal Procedure Code.

(2) When an investigation in a non-cognizable case is thus ordered and is taken up by the police under section 155 (3), Criminal Procedure Code, it must be carried through in the same manner as if the offence were cognizable, except that no arrest shall be made without a warrant. In every such case a police officer making an investigation shall day by day enter his proceedings in a case diary and submit them daily as prescribed for cognizable cases in police Rule 6.51. Case diaries shall be submitted through the Circle Officer concerned to the Court which has ordered investigation. No copies shall be prepared or kept by the police.

6.12. Orders in writing.—All orders in writing made in a case i. e. order to arrest, to search and to summon, etc, shall be attached to the case diaries, or their absence shall be satisfactorily accounted for.

6.13. Plan of scene—(1) In all important cases two plans of the scene of the offence shall be prepared by a qualified police officer or other suitable agency one to be submitted with the charge sheet or final report and the other to be retained for departmental use.

(2) The following rules shall govern the preparation of maps or plans by patwaris or other expert :—

- (i) In ordinary cases no demands for such maps will be made upon patwaris.
- (ii) In the case of heinous crime, especially in cases of murder or riots connected with land disputes, the police officer investigating the case will, if he considers an accurate map is required, summon to the scene of the crime the patwari of the circle in which it occurred and cause him to prepare two maps, one for production in court as evidence and the other for the use of the police investigating agency. In the former reference relating to the facts observed by the police officer should be entered while in the latter references based on the statement of witnesses which are not relevant in evidence may be recorded. He will be careful not to detain the patwaris longer than is necessary for the preparation of the maps.
- (iii) It is necessary to define clearly the responsibility of the patwari and police officer in respect of these maps.
- (iv) The police officer will indicate to the patwari the limits of the land of which he desires maps, and the topographical items to be shown therein. The patwari will then be responsible for drawing the maps correctly, by tracing, if necessary, the second copy, for making accurately on maps all these items and for entering on the maps true distance. He will not write on the map, intended for production as evidence in the court any explanations. The police officer may write any explanations on the traced copy of the map.
- (v) It is for the police officer himself to add to the second copy of the map such remarks as may be necessary to explain the connection of the map with the case under inquiry. He is also responsible equally with the patwaris for the correctness of all distances, but on the copy of the map drawn by the patwari for presentation in court he will make no remarks or explanations based on the statements of witnesses.
- (vi) It will be convenient if all the entries made by the patwari are made in black ink, and those added by the police in red ink.

6 14. Technical Assistance in investigation.—(1) Investigating officers are expected to take steps to secure expert technical assistance and advice, whenever such appears desirable in the course of an investigation for purposes of evidence or for demonstration in court.

(2) The Criminal Investigation Department is able to obtain expert technical assistance on many subjects and should be freely consulted in that connection by investigating officers through their Superintendents of Police. When such assistance is required a full report shall be sent to the Superin-

tendent of Police, Criminal Investigation Department, Crime Branch, so that he may be in a position to decide whether it is essential to send an expert to the scene of the Crime or whether the material to be dealt with should be sent to the expert. In making such reports use should be made of telegraphic, telphonic and radio communication facilities.

(3) The Criminal Investigation Department, in conjunction with the Finger Print Bureau, undertakes photographic and some other varieties of technical work related to scientific aids to investigation. In addition it is in contact with technical experts on many subjects, whose services can frequently be obtained for work in connection with criminal investigation. That Department is also the channel for obtaining the service of the Inspector of Explosives who, as well as advising on explosives generally, can give expert opinion as to whether a weapon has been recently fired, whether certain matter is gunpowder or not, and all questions generally savouring of chemical analysis.

6.15. Examination of handwriting, arms and ammunition, etc.—The above rules do not apply to references to the Finger Print Bureau and the Chemical Examiner to the Rajasthan Government or to the State Examiner of questioned documents, to whom, under the rules applicable. Superintendents of Police are required to make references direct. The Criminal Investigation Department is, however, in direct contact with all these technical officers and investigating officers should enlist its co-operation when any specially intricate work is required of them.

(2) Nothing in the preceding sub-rule shall debar a Superintendent of Police or Investigating Officer from availing himself of any expert technical assistance, which may be directly available to him, for the purpose of investigation. If expert evidence is to be given in court, however, it should be provided by Government experts only when such experts exist.

(3) In connection with the examination of arms and ammunition, arsenal official should only be required to report, and if absolutely essential, give evidence (i) on technical factory points, e. g., whether a weapon is in serviceable condition; whether a particular part of a weapon is factory or mistry made, and the like; (ii) on the type of ammunition intended to be used (not can be used) as experience shows that there is practically no limit in this respect in a particular weapon, and (iii) whether a cartridge has been reloaded, nature of load, and the like. Arsenal shall not be used for elaborate and definite sworn testimony as to whether a particular missile was or not fired from a particular weapon. Should districts desire, for opinion of this nature they may apply to the Criminal Investigation Department for assistance but such reference should be confined to cases of major importance only.

6.16. Cases against Government servants.—When a Government servant is accused or is suspected of the commission of an offence in the course of his official duties his immediate departmental superior, shall, as far as may

be wise and practicable, be kept informed regarding the course of the police investigation.

6.17. Supervision by Circle Officers—(1) In all important cases Circle Officers are required personally to superwise the investigation so far as is possible and when necessary to visit the scene of the offence.

(2) Every Circle Officer shall maintain a running note-book of offence (Crime Digest) in which he shall enter the salient points of the first information report and case diaries. The following are some of the points that should be entered in this note-book:—

First Information report.—(a) Police Station, village section, date and time of offence.

(b) Distance of village from police station and date and time of investigation opening.

(c) Name and rank of investigating officer, who should always be the senior officer available. Reasons for junior officer taking up cases should be most carefully checked; and

(d) Salient features of the case.

Case Diaries.—(a) Dates of the case diaries

(b) By whome written and where; and

(c) Salient features.

All unnecessary delays in the course of investigations in challaning successful cases or in submitting final reports in untraced cases should be carefully observed and stopped. Deputy Inspectors General and District Superintendent of Police shall call for these note books at their inspections and insist on their being intelligently used for the purpose of efficient supervision of investigations.

(3) Circle Officers shall interest themselves in the challans of cases in their charge as they come in and discuss them with the prosecuting inspector, and if possible with the officers who investigated them; and shall keep in touch with the proceedings in court.

(4) Every Circle Officer should bring to the notice of the District Magistrate through the proper channel, any unnecessary delays that occur in dealing with cases in courts, instances in which witnesses come up with challans and are sent back unheard, and delays in framing charges, hearing arguments or pronouncing judgments.

(5) Circle officers should follow closely the progress of cases in their charge through the courts and they should ascertain, as soon as possible, the grounds for all discharges and acquittals if the grounds for discharges or acquittals appear to be unreasonable, they should at once bring the cases prominently to the notice of the District Magistrate through the Superintendent of Police.

6.18. Statement recorded under section 161, Code of Criminal Procedure:—Statement recorded by an investigating officer under section 161, Code of Criminal Procedure shall not form part of the case diary prescribed by section 172 but shall be recorded separately and attached to

the case diary, the necessary number of copies being made by the carbon copying process on case diary continuation sheets (Form 6.52). The number of statements attached to a particular case diary, and the number of pages in each statement, shall be noted in the case diary. An investigating officer after examining a person orally or recording a statement under section 161, Code of Criminal Procedure, shall make a brief note of the fact in his case diary:—

6.19. Communications of official documents of information.—It is a universally recognised and fundamental principle of Police procedure that the identity of sources and agents from whom secret information is obtained shall be known only to the officer who employs them and that every precaution shall be taken to protect them from exposure. Except by direction of the Governor, a Police officer shall on no account disclose the identity of a source or agent to any officer or person outside the Force. Within the Force he shall disclose it only to or as ordered by the superior officer mentioned below. In the Criminal Investigation Department this superior officer is the Deputy Inspector General in the case of the whole department and the Superintendent of Police, Special Branch and Superintendent of Police Criminal investigation Department, Crime Branch as regards the Special and Crime Branches, respectively. In a district it is the Superintendent of Police or the Circle Officer immediately under whom the Police officer employing an agent or a source is working. When information obtained from an agent has to be transmitted to others, the greatest care shall be exercised to avoid the exposure of such agent. The original report, or an extract copy of the original report shall not be transmitted but the substance or a paraphrase shall be sent.

(2) All sources of Police information are protected in judicial trials by sections 124 and 125 of the Indian Evidence Act which provide respectively that no public officer should be compelled to disclose communications made to him in official confidence and that no Magistrate or police officer shall be compelled to say whence he obtained any information as to the commission of any offence. Instructions regarding the production of police records as evidence are contained in rule 8.18

6.20. Medico Legal Opinion.—(1) Persons requiring examination at the headquarters of district shall be taken to the Civil Hospital and not to a branch dispensary. Similarly in rural areas, where a hospital is accessible, medico-legal cases shall be sent there and not to a rural dispensary.

(2) Medical officers may not be called upon to proceed to the scene of an occurrence to examine injured persons except in cases of real urgency and when it is impossible to convey the injured person to the nearest dispensary or hospital.

(3) All medical officers in charge of hospitals and dispensaries are required to report to the nearest police station within 24 hours all cases of

serious injury or of poisoning admitted by them for treatment, whether such cases have been brought in by the police or not.

(4) Police officers should refrain from sending persons whose injuries are obviously slight for medico-legal examination, and should exercise their discretion in obtaining a medical opinion as to whether injuries received by complainants constitute a cognizable offence.

(5) Medico-legal cases not requiring urgent attention should be sent for examination during Hospital hours only.

Note:—This rule does not entitle the medical officer concerned to refuse to examine a case out of hours because in his opinion it is not an urgent one.

(6) The unnecessary summoning as witnesses of medical subordinates, to the detriment of their proper activities, shall be avoided as far as possible, and, when the attendance of such an officer is necessary, as much notice as possible shall be given to him. When the necessary evidence can be given by the investigating officer or by another medical witness stationed at the place where the case is being prosecuted a medical subordinate should not be summoned from a distance merely to give corroborative evidence.

6.21. Wounded complainants and witnesses.—(1) When a complainant or a witness of importance in an important case is seriously ill or is wounded, but does not appear to be dying, the police officer making the investigation shall prepare a charge sheet in accordance with rule 6.54 if this has not already been done and shall either:—

- (a) with such persons consent, send him or her, for medical treatment to the station of the magistrate having jurisdiction and invite such magistrate to take such persons deposition in the presence of the accused person, or
- (b) if such complainant or witness cannot be moved, or refuses to be sent, such officer shall apply for an order of detention in respect of the accused person if he is in custody and such order is necessary, and invite the magistrate having jurisdiction to record the deposition of such complainant or witness in the presence of the accused person at the place where the former is lying.

6.22. Dying declarations.—(1) A dying declaration shall, whenever possible, be recorded by a Magistrate.

(2) The person making the declaration shall, if possible, be examined by a medical officer with a view to ascertaining that he is sufficiently in possession of his reason to make a lucid statement.

(3) If no magistrate can be obtained, the declaration shall, when a gazetted police officer is not present, be recorded in the presence of two or more reliable witnesses unconnected with the police department and with the parties concerned in the case.

(4) If no such witnesses can be obtained without risk of the injured person dying before his statement can be recorded, it shall be recorded in the presence of two or more police officers.

(5) A dying declaration made to a police office should, under section 162, Code of Criminal Procedure, be signed by the person making it.

6.23. Medical examination of women.—No examination by a male medical officer of a living woman's person shall be made without a written order from a magistrate, addressed to the Medical Officer, directing him to take such examination.

In all cases in which the police consider such an examination to be necessary, the women shall be taken before a magistrate for orders.

The word 'person' applies only to those parts of the body, to expose which would violate a woman's modesty.

Female assistant or Sub-Assistant Surgeons in Government service shall only be required to do medico-legal work on behalf of Government when the woman or girl concerned refuses to be examined by a male doctor. When a female doctor is summoned by a Court she must attend.

6.24. Searches by police officers.—(1) The rules regarding searches by police officers are contained in section 165 and 166 Code of Criminal procedure. Notices of search under section 165, Criminal Procedure Code, summons to persons to witness search under section 103 (1), Criminal Procedure Code, and search lists under section 103 (2), Criminal Procedure Code, shall be prepared in forms 6.24 (1) (a), (b) and (c) respectively.

(2) An officer in charge of a police station receiving a requisition to search, under section 166 Code of Criminal Procedure, or other law applicable, shall comply without unnecessary delay and shall take all necessary precautions to ensure a successful search.

A police officer making such requisition may attend personally and assist in such search, or may send one or more of his subordinate for that purpose.

(3) Circle officers supervising investigation and inspecting officers shall take disciplinary action against investigating officer who carry out searches under section 165, Code of Criminal Procedure, without sufficient justification.

6.25. Records in custody of the Post Office.—The law regarding the production of documents or things in the custody of the Postal or Telegraph Department is contained in section 95, Code of Criminal Procedure.

The instructions issued by the Director-General of Post Offices (paragraph 152 of Volume V of the Post and Telegraphs Manual) regarding production of records in the custody of the post office are as follows.—

(1) Records of a post office or mail office should be produced, and information available in them should be given, on the written order of any police officer who is making an investigation in a cognizable case under

the Criminal Procedure Code, or of any Excise officer empowered by a Local Government or Administration to investigate offences punishable under any Excise Act, but only those entries in the records should be disclosed which relate to the person or persons charged with the offence under investigation or which are relevant to that offence. In any other case, the official in charge of the office should, without delay, refer for orders to the Head of the Circle, who will decide whether or not, under section 124 of the Indian Evidence Act, 1 of 1872, the information asked for should be withheld—

- Note 1.** This rule does not authorise the Post Office to hand over the records to Police Officer unless an order under section 95 of Criminal Procedure Code is obtained by the Police Officer from the District Magistrate, High Court or Court of Session.
2. When the information asked for by a police or an Excise Officer is not available in the records of the office concerned, the police or the Excise Officer should be informed accordingly, irrespective the question whether the information if available, might or might not be given.

Exception

This rule does not apply to the production of telegraph message drafts which should only be produced under the rules on the subject in the Posts and Telegraphs Manual, Volume XI

6.26. Importance of footprints and track evidence —(1) Footprints are of the first importance in the investigation of crime. For this reason all officers in charge of Police Stations shall instruct their subordinates as well as all chaukidars that, when any crime occurs all footprints and other marks existing on the scene of the crime should be carefully preserved and a watch set to see that as few persons as possible are permitted to visit the scene of the crime.

(2) When it is desired to produce evidence of the identity of tracks found at the scene of or in connection with a crime, the procedure for securing the record of such evidence shall be similar to that prescribed in rule 7.31 for the identification of suspects. The attendance of a magistrate of the highest available status shall be secured or, if that is impossible, independent witnesses of reliable character shall be summoned. In the presence of the magistrate or other witnesses, and in conformity with the any reasonable directions which they may give, ground shall be prepared for the tests. On this ground the suspect or suspects, and not less than five other persons shall be required to walk. The magistrate, or in his absence the police officer conducting the test shall record the names of all these persons and the order in which they enter the test ground. While these preparations are proceeding the tracker or other witness—who is to be asked to identify the tracks shall be prevented from approaching the place or seeing any of the persons concerned in the tests. When all preparation are complete the

witness shall be called up and required to examine both the original tracks and those on the test ground, and thereafter to make his statement. The magistrate, or in his absence, the Police Officer conducting the test shall record the statement of the witness as to the grounds of his claim to identify the tracks, and shall put such other questions as he may deem proper to test his bonafides. The officer investigating the case and his assistants shall be allowed no share in the conduct of the test.

Tracks found, which it is desired to test by comparison as above, shall be protected immediately on discovery, and their nature, measurements and peculiarities shall be recorded at the time in the case diary of the investigating officer.

The details of the preparation of the test ground and the actions required of the suspect and those with whom his tracks are mixed must vary according to the circumstances of the case. The officer conducting the test in consultation with the magistrate or independent witnesses, shall so arrange that the identifying witness may be given a fair chance but under the strictest safeguards, of comparing with the original tracks, other tracks made on similar ground and in similar conditions.

(3) The evidence of a tracker or other expert described in the foregoing rule can be substantiated by the preparation of moulds of other footprints of the criminal or criminals found at the scene of the crime.

In making moulds for production as evidence the following precautions should be observed—

- (a) The footprints found on scene of the crime must be pointed out to the reliable witnesses at the time and these same witnesses must be present during the preparation of the moulds,
- (b) The latter must also be signed or marked by the witnesses and the officer preparing them while still setting.
- (c) After the procedure described in sub-rule (2) above has been completed a mould should be prepared in the presence of the magistrate or witnesses of one of the foot prints of the suspect made in their presence. This mould should be signed by the magistrate or witnesses when still setting.
- (d) Both moulds should be carefully preserved for production in court for identification by witnesses and comparison by the Court.

6.27. Statement recorded by magistrates.—(1) The circumstances under which police officers may require a statement to be recorded by a magistrate are as follows:—

- (a) The statement, made in the course of an investigation by a witness or an accused person, and not amounting to a confession, may be recorded by a magistrate under section 164, Code of Criminal Procedure, in order that it may be available as evidence at a

later stage. Such statements may be recorded in any of the manners prescribed for recording evidence.

- (b) A confession may be recorded under section 164, Criminal Procedure Code, irrespective of the tender of a pardon, and of whether it involves more persons than the individual accused making it.
- (c) In the classes of offences specified in section 337, Criminal Procedure Code, a police officer may, at any state of the investigation, inquiry or trial, move a magistrate empowered under that section to tender a pardon to an accused persons.

(2) If a professional offender is convicted and sentenced to imprisonment or transportation and it appears that he belongs to a gang of offenders and is willing to do everything in his power to bring the members of such gang to justice, or to give valuable information leading to the discovery of stolen property, the Superintendent may apply to the State Government for suspension or remission of the sentence of such prisoner under section 401, Criminal procedure Code. Such application shall be made through the District Magistrate.

6.28. Confessing accused and approvers.—(1) The Criminal Procedure Code prescribes a number of precautions which are intended to give to a court conducting a trial the maximum assurance that a confessing accused has not been subjected to such pressure or inducements as to invalidate this evidence under section 24 Indian Evidence Act. All police officers, who exercise any authority in connection with investigations are required to have a thorough understanding of these provisions. The departmental instructions here given merely supplement and in no sense replace them.

(2) The main requirements, in so far as the Police are concerned, are :—

- (a) No police officer may offer a pardon. An accused person desirous of making a statement with a view to obtaining a pardon, shall be told that no promise whatsoever can be made, but that, if a statement is made and verified and found to be of sufficient importance to merit such action, the facts will be reported to a magistrate, who has power to offer a pardon. No steps may be taken in this connection by subordinate police officers without the previous sanction in writing of a gazetted police officer.
- (b) Statements, whether under section 164 or 337, Criminal Procedure Code, shall be recorded by the magistrate, other than the District Magistrate, having the highest powers, who can be reached within a reasonable time. Save for special reasons, which must be explained by the investigating officer, such statement shall never be recorded by 2nd class magistrates unless they have been specially empowered to record such statements.

- (c) The magistrate is required to make enquiries as to the circumstances leading up to the confession, and police officers shall invariably furnish, so far as is in their power, information required of them in this respect.
- (d) Police offices connected with the investigation shall not be present while the confession is being recorded.
- (e) Magistrates are required to give orders when remanding to custody persons who have made a confession, that they shall be kept separate from other prisoners.
- (f) When more than one person confesses or turns approver in a case, their confession shall, if possible, be recorded by different magistrates and they shall not be allowed to meet one another till their evidence has been recorded in court.
- (g) Magistrates shall be moved to record statements of confessing persons in full details; in political cases and those in which professional criminals whose activities extend over a large field are suspected, copies of approvers' statements and confessions shall be sent to the Deputy Inspector-General Criminal Investigation Department.

(3) It must be remembered that the prosecution of a gang case, even without an approver, in a section 30 magistrate's court, is a very lengthy and difficult task owing to the large number of witnesses and the numerous linked Individual cases. If, however, the prosecution relies upon an approver, the length and difficulty of the task is at least doubled as, in accordance with section 337 (2A), Code of Criminal Procedure, the case has to be committed to the Sessions or High Court. Therefore, before launching gang case under section 400 or 401, Indian Penal Code, with an approver, the District Magistrate and Superintendent of Police should first satisfy themselves that it is not possible to secure satisfactory results by proceeding in individual cases without resort to section 400 and 401, Indian Penal Code. If, however, it should still appear expedient to conduct a gang case, they should ascertain whether the district resources are equal to the strain of both committal proceedings and trial in the Sessions or High Court without outside assistance. If the district resources appear to be inadequate, the case should then be referred through the Deputy Inspector General of the range to the Deputy Inspector-General of Police, Criminal Investigation Department, for decision whether the case should or should not be undertaken.

6.29 Place of trial.—With regard to the place of trial of cases falling under section 179–143, Code of Criminal Procedure, police officer shall act solely with reference to the public convenience.

Ordinarily such cases shall be sent up for trial in the district in which the witnesses can attend with the least inconvenience to themselves.

6.30. Inquests.—(1) An officer in charge of a Police station shall, upon receipt of information of the sudden or unnatural death of any person,

when the body of such person is within the local jurisdiction of his police station, immediately send information to the nearest magistrate authorised to hold inquests and shall proceed to the place where the body is and hold an investigation in the manner prescribed by section 174, Code of Criminal Procedure. When the Sub-Inspector in charge of the Police Station through illness or absence from the station house, is himself unable to carry out the investigation, he shall at the first convenient opportunity proceed to the place where the body of the deceased person was found, and shall personally verify the results of the investigation.

(2) In cases where the body is not found, or has been buried, there can be no investigation under section 174, Code of Criminal Procedure.

In such cases, if there are reasonable grounds for suspicion that a cognizable offence has been committed, the police shall register a case and commence investigation:

in exceptional case. These may occur, where, owing to advanced putrefaction or the circumstances in which the corpse was found, movement of the corpse may make it impossible for the medical officer to form a correct opinion as to the nature of the injuries or the exact cause of death. In such cases if the investigating officer considers expert post-mortem examination essential in the interests of justice, he shall request the qualified medical officer to proceed to the spot for examination.

(3) In cases where it is impossible either to send a body to a qualified medical officer, or to have it examined by such officer on the spot, the investigating officer may, at his discretion, request the nearest Government medical officer, even though such officer be not authorised to conduct post-mortem examination, to assist him with his anatomical and other expert knowledge in estimating the effects and causes of injuries, etc. Such medical officers are not empowered to perform any operation on the body.

- (4) Endeavour to send all the exhibits in a case of murder by hurt or violence under one covering letter thereby reducing the cost of examination etc.

CHAPTER VII

Arrest, Escape and Custody.

7.1. General powers of arrest.—Section 54, Code of Criminal Procedure, authorizes any police officer to arrest without a warrant any person who has been concerned in any cognizable offence or against whom a reasonable complaint has been made, or credible information has been received, or a reasonable suspicion exists, of his having been so concerned. The authority given under this section to the police to arrest without a warrant is, however, permissive and not obligatory. Whenever escape from justice or inconvenient delay is likely to result from the police failing to arrest they are bound to do so; but in no other cases.

The law also allows a police officer in any bailable case to take security under section 170, Criminal Procedure Code from an accused person to appear before a magistrate without first arresting him.

7.2. Power to defer arrest.—If the fact that suspicion rests upon a particular person has been kept secret, and there is no risk of his absconding, the police shall defer making the arrest until the investigation is

sufficiently complete; but if any interference with the liberty of the accused person is necessary to prevent him from absconding, and the facts justify arrest, the police shall arrest him and shall not interfere with his liberty unless they arrest him.

7.3. Search of persons under arrest.—(1) All persons arrested by the police and not admitted to bail shall, soon after arrest, be thoroughly searched; in the case of females such search shall be conducted by a woman and shall in all cases be conducted with due regard to decency.

An inventory of all articles taken into custody by the police from such persons under section 51 of the Criminal procedure Code shall be prepared in duplicate by the carbon copying process and the carbon copy thereof shall be sent forthwith to a Magistrate as required by section 523 of the said code.

(2) Every prisoner in police custody shall be searched on first admission to and on every occasion when he is re-admitted to a lock-up after being taken any where beyond the precincts of the police station. Sweepers, Bhishtis and every other person other than a police officer having access to a lock-up shall be searched before entering and on leaving. The searching of women shall be done by a woman.

(3) Soldiers in police custody shall not be deprived of their shoulder titles, badges of rank and medal ribbons, but medals shall be taken into safe custody. Sikh prisoners shall be permitted to retain their karas and Hindus their sacred threads.

7.4. Lock-ups.—(1) Outside every lock-up which is guarded by the police shall be displayed a notice showing, in Hindi, the maximum number of prisoners which the lock-up is authorized to accommodate. The authorized number shall never be exceeded; any excess shall be accommodated in a convenient building under an adequate guard or transferred to the nearest available lock-up.

(2) The door of a lock-up shall not be opened except in the presence and by the direct order of the officer commanding the guard, who shall take all possible precautions to prevent a rush or escape. When the circumstances of the use of a particular lock-up are such that prisoners are constantly being admitted or removed, special standing orders for the safe custody of the operation shall be framed by the Superintendent of Police and included in the standing orders for the guard over such lockup.

(3) When it is necessary to keep prisoners in a lock-up which is in an insecure state all male prisoners, who would under the provisions of rules 7.22 and 7.23 be liable to be handcuffed under escort, shall be handcuffed while confined in such lock-up.

(4) Every under-trial prisoner in the lock-up, unable to provide himself with sufficient bedding, shall be supplied with such beddings as may be necessary.

Ordinarily one blanket and one Durry shall be issued to each prisoner in the summer. In the winter two blankets shall be issued for each prisoner.

Private bedding may be supplied by relatives or friends of the prisoner. All such bedding shall be carefully examined by the police officer in charge who shall return the same when the prisoner is released or remanded to judicial custody. When private bedding is supplied, a report to this effect shall be entered in the station daily diary.

Jail rules permit the use of beds and provide for special sanitary and bathing facilities for A and B convicts. Such facilities are not available in all police stations, but they should be provided for better class prisoners in Police custody so far as is possible. Endeavours should be made to confine better class prisoners in Police Station which possess amenities of this kind and to segregate better class from ordinary prisoners.

7.5. Warrants to be taken out when wanted persons abscond.— Permissive authority is given to the police to arrest without warrant in certain cases, in order that they may not be handicapped by having to obtain a magistrate's warrant under section 204, Code of Criminal Procedure, when the arrest of a criminal or suspect who is present before them is urgent. The law provides, however, no penalty for merely evading arrest by a police officer, though it penalises resistance to, or escape from, such arrest. On the other hand the law does not provide a severe penalty for recalcitrance to an order in the form of a warrant by a court, entirely irrespective of the evidence of the guilt of the person against whom the warrant is issued. For merely evading obedience to a warrant of arrest, a man is liable to proclamation and the confiscation of his property and any one who harbours him, as defined in section 52-A of the Indian Penal Code, can also be severely punished. Whenever, therefore, a person is wanted, whose whereabouts are not immediately known, the police shall, before setting off an search of him, obtain a warrant of arrest from the Court having jurisdiction. Unsuccessful search without such a warrant is merely waste of time. On the other hand if immediately it is found that, in spite of all reasonable effort, a warrant cannot be executed, a proclamation order under section 87, Criminal Procedure Code, can be obtained and on proclamation being duly carried out, attachment under section 88, Criminal Procedure Code, can immediately follow, and connivance by any person at the continued absconding of the person proclaimed becomes punishable under section 216, Indian Penal Code.

Note:—Under section 200, clause (aa), Code of Criminal Procedure read with section 204, Code of Criminal Procedure, a police officer can obtain a warrant on a written complaint.

7.6. Illness of persons under arrest.—When a person in police custody is suffering from any illness or injury at the time of arrest, or becomes ill or sustains injury while in such custody, such a person shall be medically examined at the earliest opportunity so that the nature and cause of the illness or injury may be ascertained and proper treatment given.

7.7. Identification of accused.—(1) Whenever there is doubt as to the correctness of a statement made by an arrested person regarding his identity, residence or antecedents, an attestation certificate in Form 7.7(1), shall at once be despatched to the officer in charge of the police station in the jurisdiction of which such person claims to be resident; such officer shall immediately make, or cause to be made all necessary inquiries, and shall ascertain if such person's name is entered in the village conviction register. The certificate shall be returned completed with as little delay as possible, and shall be attached to the charge sheet. This form of attestation certificate shall be used whether the person arrested states he is a resident of the police station in which arrested or of some other police station, and whether or not a search slip is despatched to the Finger Print Bureau.

(2) Detailed orders regarding the preparation of search slips and the finger print system are published in the Police Finger Palm and Foot Print Manual.

7.8. Report of arrest.—(1) Under section 62, Code of Criminal Procedure, an officer in charge of a police station is required to report to the District Magistrate, Sub-Divisional Magistrate, or such other magistrate as the District Magistrate may direct, all arrests without warrant made by himself or in his jurisdiction.

(2) Reports of such arrests shall be made in Form 7.8(2) whether the person arrested has been admitted to bail or not and may be sent by post.

7.9. Arrest on a telegram.—(1) In any case in which he has jurisdiction to arrest, a police officer shall take action on a telegram from a police officer or magistrate requiring him to arrest a person for a cognizable offence, but when such telegram is received from a private person he shall not arrest unless the particulars given over a cognizable offence and afford reasonable suspicion that the person to be arrested is the offender.

(2) If a telegram is received by a police officer requesting him to arrest a person for an offence which appears to such police officer to be non-cognizable he shall lay information before a magistrate having jurisdiction with a view to the issue of a summons or warrant.

If such magistrate declines to issue a summon or warrant the order of the District Magistrate shall be sought.

(3) A police officer who despatches a telegram to another police officer requesting him to arrest a person without warrant shall be responsible that the information in his possession is sufficient to justify and that the police officer addressed has jurisdiction to make such arrest.

In all such telegrams sufficient particulars shall be given of the person to be arrested and the offence of which he is accused.

7.10. Communication with authorities outside India—Should an occasion arise on which a police officer desires to communicate with any authority outside India in respect of the detection or apprehension of a

offender, he should report the facts to the Deputy-Inspector General Criminal Investigation Department.

7.11. Arrest of public servants.—Information of the intended arrest of a public servant shall if possible, be given to such public servant's immediate superior officer, before the arrest is made; otherwise information shall be given immediately after arrest.

7.12. Arrest of persons belonging to the Indian Army and instructions regarding Military Criminal jurisdiction.—(1) On the arrest by the police of a person subject to Military or Navy Airforce law, charged with the commission of an offence, early intimation shall be sent to the officer Commanding the unit to which such person belongs.

(2) The general rules defining the procedure in the case of offences committed by persons subject to the Army Act or the Indian Army Act (VIII) of 1911, which can equally be tried by a court-martial or a criminal court, are contained in the Regulations Officer for the Army in India.

7.13. Arrest of deserters.—(1) Any Police Officer may, without an order from a magistrate, arrest any person reasonably suspected of being a deserter from Army, Navy or Air Force.

(3) A deserter should be brought before the nearest Magistrate or the nearest Military Commanding Officer when no Magistrate is readily accessible. All deserters shall, as soon as possible after arrest, be handed over to military custody.

(4) A register of deserters in Form 7.13 (4) shall be maintained in the office of each Superintendent of Police (see also rule 3.44).

(5) Descriptive rolls of deserters shall if necessary, be published in the Criminal Intelligence Gazette in Form 7.13 (5).

7.14. Arrest on warrants under Gambling Ordinance.—Warrants issued under Gambling Ordinance shall be executed or, if not executed, shall be returned to the magistrate or Superintendent who issued it, within a period of not more than 15 days from the date of issue. The magistrate or Superintendent will then cancel the warrant, but a fresh warrant can be immediately applied for or issued, if necessary.

7.15. Arrest of civil prisoners.—Under the provisions of section 225-B-Indian Penal Code, the police are bound to arrest a civil prisoner who offers any resistance or illegal obstruction to his lawful apprehension, or who escapes or attempts to escape from lawful custody when such resistance, obstruction, escape or attempt to escape is an offence.

7.16. Arrest of women.—(1) All arrests of women—whether without warrant or with a warrant bailable or non-bailable shall be carried out by police officers not below the rank of assistant sub-Inspector of police or, when no such officer can be made available, by a head-constable in presence

of responsible male relatives and village or town officials. Such arrest shall be specially reported in the manner prescribed in police rule 5.10 and, when the arrest has been made by an officer of rank lower than assistant sub-inspector, the reason shall be clearly explained. Superintendents of Police shall forward special reports as required by police rule 5.12 and a copy shall be sent to the Deputy Inspector-General of Police, Criminal Investigation Department, Rajasthan in those cases only in which the woman is not sent to judicial custody or released on bail immediately. Where bail is admissible the woman should not be detained longer than is necessary for the production of the bond or sureties. No application for remand to police custody shall be made without the special order of gazetted officer.

(2) No women in police custody shall be lodged even for a night in a police station except in unavoidable circumstances. They shall be placed at once before a magistrate for remand to judicial custody, except where a remand for police custody is necessary and has been obtained in accordance with (1) above. Women remanded to judicial custody shall be immediately transferred to head quarters for properly equipped sub-divisional female judicial lock-ups. All remands to judicial custody shall be reported immediately to the District Magistrate. The gazetted officer supporting an application for remand to police custody shall be responsible for the taking of necessary measures for the safe and decent custody of the prisoner. Where women in police custody have to be escorted about for the purpose of investigation, the officer in charge of the police party shall not be below the rank of assistant sub-inspector; provided that, when no assistant sub-inspector is posted to the police station concerned, a head constable may be placed in charge of the escort.

(3) No male person under the age of 15 years or woman shall be required to attend at any place other than the place in which such male person or woman resides. If it is necessary to take a woman witness about the countryside for identification, etc., she shall be accompanied by a responsible male relative or other respectable male neighbour. Gazetted officer hearing and passing orders on such cases shall take such steps as are necessary to ensure that the above orders are scrupulously observed.

7.17. Arrest of drunken persons.—A drunken person may only be arrested by a police officer in a road, street or thorough-fare, in a town or notified area to which Police Act (V of 1861) applies and only when such person is drunk within the view of the police officer and behaves so as to cause obstruction, inconvenience, annoyance, risk, danger or damage to residents and passengers.

7.18. Stoppage of trains at non-stop stations to arrest person.—On receipt of a requisition, in writing, from a magistrate or a police officer, not below gazetted rank, a train shall be stopped by a station master at a station at which it is not booked to stop, with a view to affecting the arrest of a

person or persons travelling by it. Such requests shall be made only in special and urgent cases.

(2) No accused or convicted person shall be taken in custody from one state to another, except under the written order or warrant of the magistrate or other lawful authority directing such transfer.

7.20. Bail and recognizance.—(1) When a person accused of a bailable offence can give good and sufficient bail, the police shall accept it unless the law requires such person to be brought before the magistrate having jurisdiction.

(2) An officer in charge of a police station is empowered under section 497 (1), Code of Criminal Procedure to release on bail a person accused of a non-bailable offence (not punishable with death or transportation for life) whom he has arrested or detained without warrant. These powers are permissive and not obligatory and should be exercised with caution. The police officer must satisfy himself that the release on bail is not likely unduly to prejudice the prosecution or to be followed by the absconding of a person 'prima-facie' guilty.

(3) An officer in charge of a police station shall, in accordance with section 497 (2), Code of Criminal Procedure at any stage of an investigation release on bail or recognizance a person, accused of a non-bailable offence when it appears that there are not reasonable grounds for believing that a non-bailable offence has been committed by him, although sufficient grounds may exist for further investigation.

(4) Before any person is released on bail or recognizance due regard should be paid to the provisions of section 498, and 499, code of Criminal Procedure.

(5) In every case of release on bail or recognizance whether under section 167 of section 497, Code of Criminal Procedure, full reasons shall be recorded in a case diary, and the police officer concerned shall preserve the bond (form 7.20 (5)), until it is discharged either by the appearance of the accused person or by the order of a competent court.

(6) No police officer has power to re-arrest an accused person who has been released on bail under section 497, Code of Criminal Procedure. When re-arrest is deemed necessary, the police shall apply to a competent court for the cancellation of the bail bond and the issue of a warrant in accordance with the provisions of section 497 (5), Code of Criminal Procedure.

7.21. Classification of under trial prisoners.—Under-trial prisoners are divided into two classes based on previous standard of living. The classifying authority is the trying court subject to the approval of the District Magistrate but during the period before a prisoner is brought before a competent court, discretion shall be exercised by the officer in charge of the police station concerned to classify him as either 'better-class' or 'ordinary'. Only those prisoners should be classified provisionally as 'better class' who by social status, education or habit of life have been accustomed to a superior mode of living. The fact, that the prisoner is to be tried for the commission of any particular class of offence is not to be considered. The possession of a certain degree of literacy is in itself not sufficient for 'better class' classification and no under-trial prisoner shall be classified whose mode of living does not appear to the Police Officer concerned to have been definitely superior to that of the ordinary run of the population, whether urban or rural. Under-trial prisoners classified as 'better-class' shall be given the diet on the same scale as prescribed for A and B class convict prisoners.

7.22. Conditions in which handcuffs are to be used—(1) Every male person falling within the following category who has to be escorted in police custody and whether under police arrest, remand or trial, shall, provided that he appears to be in health and not incapable of offering effective resistance by reason of age, be carefully handcuffed on arrest and before removal from any building from which he may be taken after arrest.

- (a) Persons accused of a non-bailable offence punishable with any sentence exceeding in severity a term of three years' imprisonment.
- (b) Persons accused of an offence punishable under section 148 or 226, Indian Penal Code.
- (c) Persons accused of, and previously convicted of, such an offence as to bring the case under section 75, Indian Penal Code.
- (d) Desperate Characters.
- (e) Persons who are violent, disorderly or obstructive or acting in a manner calculated to provoke popular demonstration.
- (f) Persons who are likely to attempt to escape or to commit suicide or to be the object of an attempt at rescue. This rule shall apply whether the prisoners are escorted by road or in a vehicle.

(2) Better class under trial prisoners must only be handcuffed when this is regarded as necessary for safe custody. When a better class prisoner is handcuffed for reasons other than those contained in (a), (b) and (c) of sub-rule (1) the officer responsible shall enter in the Station Daily Diary or other appropriate record his reason for considering the use of handcuffs necessary.

Note :—For the definition of better class prisoner see rule 7.21.

7.23. Condition in which use of handcuffs may be dispensed with.—

(1) Prisoners shall not be handcuffed while confined in a lock-up, except as provided in rule 7.4 (3).

(2) The handcuffs of prisoners in court shall be removed only as provided in rule 8.10 (2).

(3) A prisoner who is charged only under section 124-A or 153-A of the Indian Penal Code shall not be handcuffed unless, he is already undergoing sentence or the officer commanding the escort has definite reason for believing that such prisoner comes within the category described in rule 7.22 (e) or (f).

7.24. Security of handcuffs —When handcuffs are used, the senior officer-present shall be responsible that they fit properly and that the prisoner cannot get at the key.

7.25 Arrest of sick or wounded persons.—(1) If wounded, or seriously ill, and in need of medical attendance, a person accused of a non-bailable offence, or unable to furnish bail in a bailable offence, shall, if possible be conveyed to the hospital at the district head-quarters or to a neighbouring dispensary.

(2) The police shall take measures to ensure his safe custody in hospital and the magistrate having jurisdiction shall be asked to grant a remand, if necessary, to examine such person.

(3) If such person cannot be moved without risk of his life, the magistrate having jurisdiction shall be asked to record his statement at the place where he is lying.

7.26. Production of accused before magistrate within 24 hours.—(1) The case of an accused person sent in custody for trial shall be brought before the court having jurisdiction as soon as possible after the arrival of the accused person at the station at which the court-sits. In no case shall an accused person arriving in custody on a close holiday or after the courts have risen, be placed in the police lock-up for more than 24 hours. If the second day after arrival is a close holiday, application for remand shall be made immediately.

(2) Every person who is arrested and detained in police custody shall be produced before the nearest magistrate within a period of twenty-four hours of such arrest excluding the time necessary for the journey from place of arrest to the court of the Magistrate and no such person shall be detained in custody beyond the said period without the authority of a Magistrate.

(3) If an accused person is in custody charged with an offence in which bail may be taken by the police it shall be the duty of the police to facilitate any attempt to find bail for such person.

7.27. Diet of accused persons.—(1) Officers in charge of police station shall arrange for the dieting of such accused persons arrested by the police as do not provide their own diet. The sum expended on the diet of

each individual shall not exceed the scale prescribed from time to time by the State Government.

The police shall provide for dieting on, and from, the date of arrest to, and for, the date on which the accused is placed in the magisterial lock-up.

(2) All food brought for the prisoner by relatives or friends shall be made over to the police station clerk or head constable in command of the guard and shall be examined for prohibited or injurious articles as can be detected by eye. After such examination the food shall be given to the prisoner by a police officer. The person bringing the food shall have no access to the prisoner.

(3) In the report in the station daily diary regarding the first admission of a prisoner to a lock up, it shall be stated whether he is to be dieted at Government expense or by friends. In the latter case the name of the person who undertakes responsibility for the prisoner's feeding shall be entered.

7.28. Interviews with prisoners.—No person shall be allowed to communicate in any way with a prisoner in a police lock-up without the permission of the officer in charge of the police station (as defined in section 4(p), Criminal Procedure Code), or written authority from a judicial or superior police officer.

(2) Authorised interviews shall take place in the presence and hearing of the police sentry, and the interviewer shall stand sufficiently far from the bars of the lock-up to prevent physical contact or the passage of prohibited articles between him and the prisoner. When a lawyer wishes to consult and advise a prisoner confidentially as to the conduct of his case, the prisoner may be removed from the lock-up and allowed to sit apart with his lawyer but within the precincts of the police station and in the sight of the sentry. At the conclusion of such an interview the prisoner shall be searched as provided in sub-rule 6.3 2).

7.29. Orders to be hung up outside lock-ups.—A printed copy, in Hindi or rules 7.3, 7.27 and 7.28 shall be hung up outside every police lock-up as a standing order for sentries and for the information of the public.

7.30. Deaths in police custody —(1) When any person dies while in the custody of the police, the officer in charge of the guard, escort or police station, as the case may be, shall make an immediate report of the fact to the nearest magistrate empowered to hold inquests (section 176, Code of Criminal Procedure).

(2) For the purpose of this rule, a prisoner in a magisterial lock-up is considered to be in the custody of the turn key and a prisoner in prison or prison camp in the custody of the jailor.

7.31. Identification of suspects.—(1) The following general instructions should be kept in view at an identification parade of a suspect—

(a) All efforts should be made to have the identification proceedings of a suspect conducted before a magistrate.

(b) Identification proceedings should be held soon after the arrest of suspects.

(c) Identification proceedings may be either held in Jail, Courtroom or elsewhere. But it should be ensured that the identifying witnesses had no opportunity to see a suspect before hand.

(d) It should be vouchsafed that a suspect put to identification proceedings has been put under veil (Baparda) since the time of arrest, till the proceedings for his identification are actually arranged. A record to that effect should be maintained in General diary and at the jail at the time of his admission in the jail record, when the suspect is handed over to the jail authorities.

(e) The identifying witnesses should be kept separate from each other and at such a distance from the place of identification as shall render it impossible for them to see the suspects or any of the persons concerned in the proceedings, until they are called up to make their identification.

(f) The suspects should be placed among other persons similarly dressed and of the same stature in the proportion of eight to ten persons to one suspect. There should be resemblance in facial out-look of the persons so mixed up with that of the suspects. Each witness has to be called up separately to attempt his identification before the proceedings actually commence. Care shall be taken that the remaining witnesses are still kept out of sight and hearing and that no opportunity is afforded for communications to pass between witnesses who have been called up, and those who have not.

(g) The results of the test shall be recorded in the Form 7.31(i)(g) as prescribed by the General rules (criminal) 1952 by a magistrate conducting the identification proceedings. The same course may be adopted by the other agency carrying on these proceedings. The form should invariably be signed by the magistrate or other authority on the conclusion of the proceedings. The identifying witness should also sign the form. This has to be done by the magistrate and the witnesses in token of the correctness of the proceedings. It is important that once the arrangements for the proceedings have been undertaken, the officer conducting and any police officer assisting him in that investigation should have no access whatsoever either to the suspects or to the witnesses.

(h) Proceedings of the nature described above are extra-judicial. It is not the duty of the officer conducting them or of the independent witnesses to record statements or cross-examine either suspects or identifying witnesses, but they should be requested to question the latter as to the circumstances in which they saw the suspect whom they claim to identify and to record the answer in the proper column of the form. While every precaution shall be taken to prevent collusion, the identifying witnesses must be given a fair chance, and conditions must not be imposed, which would make

it impossible for a person honestly capable of making an identification, to do so. In this connection it is of paramount importance that no alteration in any way of the personal appearance of unconvicted persons should be made so as to make it difficult to recognise them.

(2) The following precautions at the time of identification proceedings are necessary:—

(a) It has to be particularly seen that a suspect should be made to wear the clothes in which he was originally admitted to jail.

(b) There should be no fetters on.

(c) The accused can be given option to change places at will, but cannot be allowed either to conceal his face or stature so as to impede recognition and to exchange his clothings.

(d) The witnesses are to be called one by one and asked to single out the person or persons they had come to identify and to mention the action they had identified him or them.

(e) Every precaution should be taken to ensure that no succeeding witness communicated in any manner with the preceding one.

(3) As mentioned above only the investigating officers are precluded from being present at the identification parade and witnessing the proceedings. Prosecuting inspectors and prosecuting sub-inspectors may watch the proceedings impartially without impairing their fairness.

7.32. Identification of property. —(i) It is of utmost importance that the articles of property seized by the investigating agency shall be properly sealed on the spot and it should be ensured that the seals are intact.

(ii) The number of articles to be mixed up with the articles of property required to be put to identification test should rest with the magistrate before whom the proceedings are to be carried on.

(iii) The articles of property to be mixed up to with the articles of property put for the purpose of identification should also be contained in sealed bundles.

(iv) The seals must be all along intact and can only be opened before the magistrate conducting the identification proceedings.

(v) As in the identification parade of suspects, witnesses are to be called one by one and no succeeding witness should communicate in any manner with the preceding one.

(vi) It is also important to note that the articles to be mixed up should be similar in appearance to those for identification.

(vii) The prosecuting inspector or the prosecuting sub-inspector may be present at the time of the identification proceedings.

(viii) The articles to be mixed up should be arranged for production according to the instructions of the Government which they may issue in this behalf. However, there should be given no chance, whatsoever for an objection that the articles brought for being mixed up were exposed to the

identifying witness before identification proceedings took place. The arranging of such articles to all intents and purposes should be by an agency other than the police.

(ix) Proceedings of the identification of property shall be recorded in Form 7.32 (IX).

CHAPTER VIII

Prosecution and Court Duties.

8.1. Charge-sheet preparations and scrutiny of.—(1) When an accused person is sent for trial the charge sheet (Form 6.54 (1)) shall form the final report required by section 173, Code of Criminal Procedure. Loose Forms of charge sheets shall be kept at each police station to enable investigating officers to prepare and submit them even when away from their police stations.

(2) Charge sheets shall be submitted through the Circle Officers Incharge of the Crime of the Police Station concerned.

(3) Charge sheets shall be thoroughly scrutinised by an officer of the prosecuting branch not below the rank of Prosecuting Sub-Inspector, who shall be responsible for seeing that carbon copies of incomplete charge sheets together with the copies of orders passed by Magistrate thereon and other necessary papers are attached; that the identity and previous convictions, of the accused persons have been established; that, in cases when an accused person is on security and such security will be liable to confiscation in the event of conviction, the fact is duly noted in the file so that the attention of the court may be drawn to it; that witnesses are according to the list entered in the charge sheet, that the police file is complete and that no papers belonging to it are attached with the charge sheet, and that no omissions or defects in the investigation remain unrectified or unexplained. After completing his scrutiny as above, the officer of the prosecuting branch shall lay the charge sheet and files before the Circle officer and shall explain the case to him, and take his orders as to whether it shall be put into court or withheld for further police action. Such circle officer shall satisfy himself that the prosecution case is presented in the best possible manner that all material evidence is produced, including evidence calculated to rebut probable lines of defence.

(4) Before sending a charge sheet to head-quarters the investigating officer should collect all witnesses whom it has been decided to produce in court, and take personal recognizances from them to appear on the same date as that on which the charge sheet will reach the court. The challan should reach headquarters not less than one day before the date fixed for hearing of the case. It shall be the duty of the prosecuting branch to facilitate the working of this system and the prompt disposal of police cases by arranging with magistrate that a special period be set apart daily for dealing with fresh challans and by giving magistrates as much warning

as possible of the anticipated presentation of challan (vide rule 6.49) This period should be so fixed as to allow time for witnesses to reach the police office and for challans to be thoroughly checked and at the same time to permit of all new police cases being taken up by magistrate at such an hour that it may be possible for the bulk of the prosecution evidence to be recorded before the court rises for the day. When there are a large number of prosecution witnesses in a case only the more important ones, whose evidence is necessary to facilitate the early framing of charges, shall be sent with the challan.

(5) In all serious cases, when the accused has been arrested and *prima facie* evidence has been produced, the investigating officer shall send the accused for trial without delay, whether the investigation is complete or not. Witnesses should accompany such challans and the same arrangements for the prompt recording of evidence as laid down in sub-rule (4) above should be observed. When available evidence has been recorded, remands or adjournments under section 167 or 344, Code of Criminal Procedure, shall be arranged as may be necessary. Evidence obtained subsequently shall be produced before the court by subsidiary challan.

8.2. Charge sheet slip and road certificate.—(1) With every charge sheet shall be sent:—

- (a) A charge sheet slip in Form 8.2 (1) (a).
- (b) A road certificate.

(2) On the completion of the case in court the charge sheet slip shall be filed in under the orders of the criminal court trying the case and returned to the Circle Officer concerned. The result of the case shall then be entered in the Crime Register and communicated to the Police Station concerned.

(3) In the road certificate shall be entered a list of any weapons, articles or property sent to the magistrate's court in connection with the case. If such articles are received correctly the prosecuting inspector or sub-inspector shall sign a receipt for them on the road certificate and return it to the police station

APPENDIX No. 2.29

Instructions Concerning the Examination of Scenes of Thefts and Burglaries and Particulars Required to be submitted in the Cases of all such Offences to the Central Investigating Agency.

The scenes of all offences under Chapter 17, Indian Penal Code, shall be most carefully examined, as soon as possible, by the investigating officer who, in cases of theft (except cattle theft) and burglary, shall attach a separate site inspection report with the first case diary irrespective of the fact whether the accused are known, unknown arrested or at large. This site inspection report on arrival at head-quarters shall be passed on without delay to the District Investigating Agency.

In the case of offences against property, other than theft and burglary, no site inspection report need be prepared unless the scene of the offence presents such peculiarities as make such a report desirable or unless a report is called for by the officer in charge of the District Investigating Agency.

The object of a site inspection report is (a) to enable other officers who have not been to the spot to visualise the scene (b) to permit of an intelligent study of the ways and methods of the particular criminal by the District investigating Agency (c) to enable the Central Investigating Agency from their records of individual criminals to suggest identity of the accused responsible for the particular case under investigation. Obviously, there-

fore, every site inspection report must be intelligently and carefully compiled after a deliberate study of the scene. A list of points that should find mention in site inspection reports is given below, but the list is by no means exhaustive and is intended merely as a guide.

APPENDIX 6.40 (4)

Directions for and Precautions to be taken in forwarding Articles
to the Chemical Examiner for Examination and Report

All articles should, as far as possible, be sent by registered parcel post. If this cannot be done and the articles are important, they should be sent by hand. Only very heavy and unimportant articles should be sent by rail.

Human poisoning cases.

I. Fatal.—The following articles should be forwarded in all cases:—

(1) Stomach with contents. The stomach should be securely tied at both ends.

(2) A piece of the small intestine (about 3 feet) securely tied at both ends.

(3) A portion of the liver (not less than 16 Ounces), one kidney and piece of spleen.

(4) Urine or stomach washings if available.

(5) A sample of the preservative fluid used.

Note:—(1) Rectified spirit should be used in all cases unless alcohol, phosphorus or carbolic acid poisoning is suspected. In such cases normal saline solution should be used.

II. In suspected coal-gas (charcoal) poisoning, a sample of the blood should be sent in a small bottle properly corked. Add two drops only of formalin to prevent decomposition if available.

III. Ashes and burnt bones should only be sent where a metallic poison is suspected. Vegetable poisons are destroyed during cremation.

Documents which should be forwarded:—

A. By post—

(1) Post mortem Report.

Note:—Information on the following toxicologically important points should invariably be supplied—

(a) Date and hours of onset of symptoms; (b) date and hour of death; (c) in cases where the body has been exhumed, dates of burial and of exhumation should be entered in column headed "Death" (d) in cases of suspected irritant poisoning, the condition of the gastro-intestinal tract, as regards emptiness or otherwise, as well as any abnormal appearance of the mucous membranes should be specially noted.

The following information should also be given:—

(a) note of symptoms observed by the Medical Officer if the case has been seen during life by him, (b) note of nature and duration of treatment, if any, adopted by the Medical Officer, Police, or Friends of deceased.

(2) Statements of symptoms (Police form 6.36 (i)) supplied by the Police to the forwarding Medical Officer. (This form should be carefully

filled by in the Police, noting particularly the early or first symptoms observed.)

(3) Certified copy of Police Reports sent with the case to the forwarding Medical Officer.

(4) Forwarding memo, and invoice list of articles forwarded for examination to the Chemical Examiner.

(5) Impression or imprint of seal used to seal the packages.

Notes:—(1) The seal should be a private one, and the same seal should be used throughout. The impression should be attached to the forwarding memo (No. 4), and should be protected by a thin layer of cotton wool to prevent its being broken in transit.

(2) An imprint of the seal on a piece of paper is better than an impression of the seal.

B. Under cover of the box containing the articles for examination—

(1) Duplicate copies of forwarding memo, invoice list of articles sent for analysis.

(2) Duplicate impression or preferably imprint of seal used in the case.

Note:—Make sure that the bottles are properly corked and packed otherwise leakages stain the documents inside.

II. Non-Fatal.—Vomit, stomach washings purged matter, urine and suspected articles of food should be sent whenever available.

Documents which should be forwarded:—

A. By post—

(1) Statement of symptoms (Police form 6.36(i)).

(2) Note of symptoms observed by the Medical Officer.

(3) Note of treatment, if any, adopted by the Medical Officer, Police or patient's friends.

(4) Forwarding memo (original) and invoice list of articles forwarded for examination. The nature of the preservative fluid used, if any, should be stated.

(5) Impression or imprint of seal used to seal the packages.

B. Under cover of box containing the articles for examination—

(1) Duplicate copy of forwarding memo, and invoice list of articles sent for analysis, and of police form No ...6.36(1)

(2) Duplicate impression or imprint of seal used in the case.

Abortion cases.

I. Fatal.—As in fatal human poisoning cases, but, in addition, the uterus and upper part of the vagina should invariably be sent, alongwith any foreign bodies found in the genital tract.

II. Non-fatal.—As in non-fatal poisoning cases, but, in addition, any foreign bodies expelled or removed from the vagina or uterus should be sent.

Blood-stain cases.

The entire garments or other articles suspected to be stained with blood should be sent, if possible, no portions removed or cut from them. A label with number and description of the articles should be stitched or tied (not gummed or pasted) to each separate article, care being taken that the labels correspond with the invoice list of articles. When the label is tied to the articles the string should be sealed.

Notes:—(1) Take care that the stains are quite dry before being packed for examination. Wet stains readily decompose.

(2) Do not make a circle with ink or indelible pencil around the suspected stains. In wet weather or during examination such circles run into the stain and interfere with the tests.

(3) Wet blood stains on a culprit's body should be removed with a clean cotton swab and properly dried before being sent for analysis. Dry blood stains on a culprit's body may be gently scrapped into an envelope and then despatched for analysis.

Documents which should be forwarded.**A. By post—**

- (1) Forwarding memo and invoice list of articles for examination.
- (2) Impression or imprint of seal used in the case.

B. With the articles—

- (1) Duplicate copy of forwarding memo and invoice list.
- (2) Duplicate impression or imprint of seal used in the case.

Semen cases

The entire garment, etc., should be sent. The cloth should not be folded at the stained portion. The stain should be kept quite flat, and should be protected by a thin layer of cotton wool on each surface.

Note:—It is better to send swabs from the vaginal mucus than mounted slides. These swabs should be first dried and then forwarded in a small box or phial carefully labelled.

Rules for preserving and packing exhibits for transmission to the Chemical Examiner.

I. The suspected organs or other exhibits should be placed in a clean glass bottle or jar having a good fitting stopper or cork. Wide mouthed bottles or jars of sufficient size must be used, otherwise the contents readily decompose. It is also difficult to empty narrow-mouthed bottles or jars that are tightly packed.

II. Materials that are liable to decompose should be preserved by one of the following methods:—

(I) In cases of suspected human poisoning other than alcohol, phosphorus, carbolic acid and some of the lesser known volatile poisons, the material sent should be immersed in rectified spirit. The spirit should be sufficient to cover the material immersed in whatever position the vessel

containing it may be held. On no account use common bazaar spirit. A separate four ounce bottle of the rectified spirit added should be sent for independent analysis as a control.

(2) In those cases mentioned above whether rectified spirit should not be added, the preservative used should be salt solution and the same precautions for immersion of material should be exercised. A salt solution is made by adding a full tablespoonful of salt about a pint of fresh clean water. A separate four ounce bottle of this salt solution should be sent for independent analysis as a control.

(3) If two or more examinations have to be made on the same occasion, the medical officer should complete one and label and seal the articles connected with it before commencing a second examination, otherwise there is risk of the viscera, etc., of one case getting mixed with those of another. He should clean his instruments and vessels before commencing the second case.

(4) In cases of suspected cattle poisoning, the viscera or other material should be preserved in rectified spirit with the same precautions as those exercised in human poisoning cases (item 2).

(5) It is advisable to keep a sample of the preservative added under lock and key in case the bottle containing the sample sent to the Chemical Examiner should arrive broken.

III. Great care should be taken that the stopper or cork of the bottle or jar fits tightly; especially this is necessary during the hot weather, when rectified spirit is added as a preservative. The stopper may first be canale-waxed and then carefully tied down with leather or water proof and sealed.

IV. To secure identity, the bottles or jars should be properly labelled with a list of the contents.

V. The bottles or jars should then be placed in a strong wooden box with plenty of packing material to ensure against any breakages during transit. Saw dust, cotton wool, and dried grass are suitable for this purpose. Old office papers etc. should not be used as the copies of the forwarding documents enclosed in the box are liable to be thrown away with this waste paper packing material. Keep these documents well away from the bottles as breakages or leakages are apt to strain them.

VI. The box itself should be covered with common garha cloth properly sewed and sealed. Seals should be at short intervals of three inches along each line of sewing. All the seals must be similar and preferably the wax should be of the same kind. The seal used should be the ordinary office seal and must be kept under lock and key. Current coins, or a series of straight curved or crossed lines must not be used as seals. The box should be properly addressed and sufficient stamps added to cover postage. The box must also be franked.

VII. Under no circumstances should viscera from different case be included in the same parcel.

VIII. The despatching officer who is invariably the Civil Surgeon or another medical officer authorised to conduct post-mortem examination, is personally responsible that these instructions are carefully followed.

Note:—In order to minimise the chances of parcels being lost in transit between the office of the Chemical Examiner and the Railway Stationall articles for medico-legal examination should be sent by post as far as possible or better still by hand.

IX. In cases where the police send a closed parcel through the medical officer and the latter has no occasion to open it in transmission, the parcel should be packed in a second cloth cover and the forwarding memo should also be enclosed. This procedure is necessary and prevents cases getting mixed up on received in the Chemical Examiner's office.

X. A declaration of the contents to the Postal authorities is unnecessary.

APPENDIX 6.41 (2)

INSTRUCTIONS FOR DEALING WITH SUBSTANCES FOR OBJECTS SUSPECTED OF BEING EXPLOSIVE

Introduction

Explosive substances or objects which may cause explosion may be met within the following forms :—

A. Liquids.—For example nitro-glycerine. These will rarely have to be dealt with. The possession of a liquid explosive is generally illegal.

B. Solids.—

(1) Blasting explosives.—Dynamite, Gelatine Dynamite, Blasting Gelatine, Gelignite, etc. These are usually made up in cylinder form about two inches long in waterproof paper wrappers, stamped with the maker's name. They vary in consistency from a tough leathery material to a soft one like ordinary stiff jelly.

(2) Gunpowder.—May be black, brown or grey and is made up in cylinder form, cubes, pebbles, grains and powder.

(3) Gun cotton.—Is white and is supplied in slabs or cylinders or loose like ordinary cotton wool.

(4) Gun, rifle and shot gun powders.—These are generally in cords, tapes or grains, but are found as small cubes or flakes. In colour they may be white, pink, yellow, blue or black.

(5) Fulminates.—These are white or grey powders. They are extremely dangerous. Their possession is generally illegal.

(6) Picric acid and picrates.—These are crystalline or may be in powder form. They have a brilliant yellow colour if pure. A license is required for their possession.

(7) (a) Ammonal.—This is a mixture of tri-nitro-tol uene, ammonium nitrate, aluminium powder and charcoal. It is a silvery brown paste.

(b) Amatol.—Is a mixture of tri-nitro-tol uence and ammonium nitrate. In appearance it is a brown paste.

(8) Chlorate of potash.—May be found in clear tabular crystals or as a white powder.

(9) Sulphide of arsenic.—Is generally found as a yellow or orange powder.

(10) Carbide or phosphide of calcium.—Under certain circumstances these may cause violent explosion.

(11) Detonators and caps.—These are explosives made up in metal tubes or small metal caps. Military detonators, friction tubes and time fuzes are made in a great variety of forms. All detonators should be handled with the utmost care.

(12) Fuse.—This is slow burning gunpowder rolled up in cloth or paper in the form of long cards. Military fuses are made up in metal bodies in great variety of forms.

(13) Cartridges.—These are either commercial, military or sporting and generally contain their own means of ignition in the form of a cap or primer. Cartridges for big guns generally consist of explosives made up in silk cloth or shalloon bags or bundles.

(14) Bombs.—These are explosives contained in receptacles such as bottles, jars, coconut shells, cloth, jute or hemp, balls or bundles, books, letters, tins, metal shells, bamboo tubes, water cistern floats, chatties, etc., the whole being designed to explode by percussion, fuse, trigger, by being inverted etc.

(15) Fireworks.—Fireworks are provided with a fuse of touch papers or slow match. Throwdowns, crackers, explosives, corks or objects designed to explode by percussion, provided they are not detonators, caps or cartridges are not fireworks, but bombs.

(16) Rockets.—Some rockets are not fireworks. Life saving signal and military rockets are dangerous and should be handled with care.

Signals.—These may be ship-flares, signal lights, etc. They are not fireworks.

C. Gases.—

Liquid or compressed gases (ammonia, oxygen, hydrogen, acetylene, carbon-di-oxide) in cylinder, sparklets, etc. may under certain circumstances cause violent explosion.

Instructions

A local police officer should communicate at once with the Superintendent of Police, who will himself proceed, or depute some responsible officer to proceed, to the place to carry out the following instructions:—

1. If you have any reason, however slight, to suspect that the substances or object with which you are dealing is dangerous then regard it as being Highly Explosive until such time as it is proved to be otherwise.

2. During the removal, guarding or examination of any substance or object suspected of being explosive, all unnecessary persons whether police or otherwise should be sent away.

3. If the substance you are examining is Liquid, proceed as in paragraphs 6 or 7 Solid, proceed as in paragraphs 8, 9, or 10 Gas, proceed as in paragraph 11.

4. If the object you are examining is a—

Detonator or cap.

Fuse,

Cartridge,

Firework,

Rocket,

Signal Light,

Bomb,

Proceed as in paragraph 12.

Proceed as in paragraph 13.

6. (1) If the substance is a liquid in an open vessel. Carefully dip into the liquid a pencil or thin piece of stick and allow one drop to fall on a small piece of blotting paper or tin foil (silver paper). Remove this ten yards or more from the vessel or vessels containing the bulk of the liquid, place it upon a flat surface of iron or stone and strike it a sharp glancing blow with a flat headed hammer. Repeat the test three times with fresh drops and also by burning a fresh drop of the liquid on blotting paper in the flame of a spirit lamp or candle

(A) The substance explodes or burns rapidly.—Place about half an ounce of the liquid in a small clean bottle, carefully cork it up (do not use a glass or metal stopper), and after packing in cotton wool in a box or tin, send it by messenger to the Inspector of Explosives, Northern India, with your report. The bulk of the liquid should be locked up in an isolated place until instructions are received from the Inspector of Explosives, Northern India, as to its disposal.

(B) The substance does not explode or burn rapidly.—Place about half an ounce of the liquid in a small clean bottle, cork up and after packing send by post to the Inspector of Explosives, Northern India, with your report, the bulk of the liquid should be locked up in any convenient place until the report of the Inspector of Explosives is received.

7. (1) When the substance is a liquid in a closed vessel.—(1) If the vessel is a bottle and is not suspected of being a bomb and the stopper will not come out when using only moderate power, do not attempt to open but send it by messenger to the nearest Inspector of Explosives together with your report, first having carefully packed the bottle upright in a box with straw, sawdust, or paper, etc.

(2) If the vessel is a bottle and is not suspected of being a bomb and the stopper will come out, then proceed as in paragraph 6.

(3) If the vessel is not suspected of being a bomb and is of metal or other hard material and the stopper will not come out when moderate force is used, do not attempt to open but remove the vessel very gently and in such a manner as to expose it to as little shaking as possible, and without turning it over in any way, to such open place of safety in the vicinity as may be available, where its ignition or explosion would be attended with a minimum of mischief, e.g., a yard or a garden or other open space from which the public are or can be excluded. Tie two pieces of strong cord to the vessel passing one cord round a hook or tree and from round the corner of a building and after all persons have been removed from within range, pull the cords backward and forward so that the vessel is upset and given as severe a shaking as possible, then leave the vessel alone for twelve hours.

If explosion is not obtained and the vessel is not too large send it by messenger to the Inspector of Explosives with your report.

If the vessel is a large one, try once more to open it using more force. If you cannot open it, remove the vessel to a convenient place where it can be locked up and send a copy of your report and all connected papers to the Inspector of Explosives.

8. When the substance is a solid in an open vessel.—

(1) Carefully take out with a piece of cardboard or flat stick a few grains of the solid and after removing it ten yards or more away from the vessel or vessels containing the bulk of the substance, place it upon a flat surface of iron or stone and strike it a sharp glancing blow with a flat headed hammer. Repeat the test three times with fresh substance and also try burning a small portion on blotting paper in the flame of a spirit lamp or candle.

(A) The substance explodes or burns rapidly.—Take a very small amount of substance, add to it a little water and notice what happens. If the substance undergoes no change and there is no sign of any gas being given off, or of heat being generated, place about half an ounce of the substance in a small clean bottle and fill up with clean water. Cork the bottle carefully, taking the precaution not to use a glass or metal stopper, and then pack it in cotton wool in a box or tin and send it by messenger to the Inspector of Explosives with your report.

The bulk of the substance should then be covered with clean water and locked up in an isolated place until instructions are received from the Inspector of Explosives as to its disposal.

(B) The substance does not explode or burn rapidly.—Test a small amount of the substance with water in exactly the same way as detailed in (A). If the substance undergoes no change and there is no sign of any gas being given off, or of heat being generated, place about half an ounce of the substance in a small clean bottle and fill up with water. Cork the bottle carefully, and after packing, send it by post to the Inspector of Explosives with your report.

The bulk of the substance should then be covered with clean water and locked up in any convenient place until the report of the Inspector of Explosives is received.

(2) If you find that the substance under sub-paragraphs (A) and (B) does undergo a change, etc., when water is added proceed exactly as before, except that the sample in all cases should be sent dry, and the bulk also kept dry. Make certain that your bottle is absolutely dry before you put the sample into it.

9. When the substance is a solid in a closed vessel — (1) If the vessel is a bottle and is not suspected of being a bomb and the stopper will not come out when only moderate power is used, do not attempt to open it but sent it by messenger to the Inspector of Explosives together with your report, first having carefully packed the bottle upright in a box with straw, sawdust, paper etc.

(2) If the vessel is a bottle and is not suspected of being a bomb and the stopper will come out then proceed as in.

(3) If the vessel is not suspected of being a bomb and is of metal or other hard material proceed as in 7.(2).

10. When the substance is calcium carbide or calcium phosphide. — If it is desired to destroy calcium carbide or calcium phosphide, this can be done by dropping them into deep water, but not more than half a pound at a time, waiting until no more gas is given off before a fresh portion is destroyed.

11. When the substance is a gas. — Cases are generally found compressed in cylinder, sparklets, etc. They should be kept cool and away from the direct rays of the sun. If it is desired to know what gas in any cylinder, the whole cylinder should be sewn up in a coir matting and sent by train to the Inspector of Explosives together with your report. Small cylinders or sparklets only a few inches long can be sent by post if well packed in cotton wool in a wooden box.

12. When the object is a detonator, cap, fuse, cartridge, firework, rocket, light, these should never, under any circumstances, be sent through the post. A few should be carefully packed separately in cotton wool in a wooden box and be sent by hand to the Inspector of Explosives together with your report. The bulk should be locked up in an isolated place.

13. When the object is a bomb. — (1) These may be met within the following forms :—

A. Military grenades

B. Copies of military grenades.

C. Bombs made up in soda bottles, jam tins, water cistern floats, chatties, coconut shells, bundles of jute or bamboo tubes, etc.

D. Book bombs.

E. Letter bombs.

(2) Any of these may be designed to explode—

- (a) when moved in any way.
- (b) when turned over.
- (c) when placed in water.
- (d) when thrown down.
- (e) by lighting a fuse.
- (f) by clock work.
- (g) by chemical reaction.

3. Before touching the bomb examine it where it lies and see if it is set or not. Do not move the bomb unless you are satisfied that it is safe to do so. If you are not satisfied then place a guard over the bomb and report to your senior officer.

A. Military grenades.—The first thing to do is to see that the safety pin is in position, that it is not broken or corroded and that the ends are well played out so that it cannot be jolted out. See that the jaws of the lever are in good condition and support the striker correctly. Being satisfied on these points, the base should be unscrewed and, if the igniter set is present, it should be carefully removed. Pack the igniter set and the bomb in cotton wool in separate wooden boxes and, send by hand to the Inspector of Explosives together with your report.

If the safety pin and lever are missing and the striker is inside the bomb, it will probably have to be destroyed in situ. Set a guard over it where it lies and report to your senior officer.

B. Copies of military grenades.—These are generally something like a military grenade but are of cruder finish. They must only be handled by persons who have handled bombs before. It is generally possible to render them harmless by removing an explosive cap or tuft of gun cotton. This should only be done when you are satisfied that the trigger is safe. Do not put this type of bomb in water but, provided the trigger has been made safe, it should be packed in cotton wool in a wooden box and be sent by hand to the Inspector of Explosives together with your report.

C. Bombs made up in soda bottles, etc.—First arrange a string bag and strong cord over a large bucket of hot water. Carefully remove the bomb keeping it in the same position as found and place it in the bag and from round the corner of a building first having sent everybody present under cover lower the bomb into the hot water and leave it there for 24 hours. The water will then be cold.

It may then be taken out and be carefully packed in wet straw or cotton wool in a wooden box and be sent by hand to the Inspector of Explosives together with your report.

If the bomb is well made and there is a possibility that the water may not have penetrated inside; it should be given the rough treatment described in paragraph 7.(3) before being sent away.

Book bombs.—These are bombs made up in book form and are generally designed to explode when the book is opened or turned over. Such a bomb should be very carefully taken to an isolated place, keeping it in the original position all the time and be locked up. Send a report on the subject to the Inspector of Explosives.

E. Letter bombs—These are letters containing explosives which are designed to explode when opened. Place the whole letter in a bucket of water. When the letter is quite wet, pack it in a tin in wet cotton wool and sent by hand to the Inspector of Explosives together with your report.

Body Traps.—1. "Body Traps", are bombs generally designed to explode in the presence of an officer who is engaged in searching suspected premises.

2. They may be designed to explode when the bomb is moved in any way or electric contact is made by some action of the officer or by clock work or chemical means.

3. The most prevalent procedure is to cause one bomb to explode in a house by time fuse, such as a burning candle, leaving a second bomb which will explode when the officer comes to investigate the first explosion, or the officer may be tempted to the house by a message, telephone call, etc.

4. Another method is to leave the second bomb with an obvious means of ignition such as a burning candle in the hope that the officer will extinguish the candle and then consider the bomb as safe whereas it is really designed to explode if moved in any way.

5. Never enter a house or room in which you suspect body traps by the obvious way. First smash a window or knock a hole in the wall with a crowbar opposite the door to see if the door can be safely opened.

6. Enter the house or room very slowly touching nothing until each object has been carefully examined. Make a loop at the end of long rope and drop the loop over each object which might be a bomb without touching it. These may be such things as tins, trunks, kettles, lamps, buckets, boxes, clocks, etc. From outside the room or house jerk the object about by means of the rope and do not enter the room or house again for some minutes in each case. Open the lids of boxes or trunks by means of the rope from round to corner.

7. If an unexploded bomb is discovered after this treatment proceed as in paragraph C above.

Notes

Section 3 of the Act empowers Civil and Criminal Courts to require appearance of prisoners to give evidence or answer a charge. The order made for appearance of prisoners requires counter signature under sub-section (iii) of section 3 which provides that,—No order made under this section by a civil court which is subordinate to a district judge shall have effect unless it is countersigned by the district judge; and no order made under this section by a criminal court which is inferior to the court of a magistrate of the first class shall have effect unless it is countersigned by the district magistrate to whom that court is subordinate or within the local limits of whose jurisdiction that court is situate.

The rule prescribes the procedure of such counter signature.

- (b) The Jail where he is for the time being confined, and

Notes

Clause (c) of sub-section (ii) of section 9 of the Act requires the State Government to make rule providing for the conditions, including payment of costs and charges, subject to which an order made under section 3 by a Civil Court may be executed. Rule fulfills the requirements of this provision of law.

6. *Declaration of unfitness.*—(1) When an order under section 3 is received by the Superintendent, he shall apply to the District or Sub-Divisional Magistrate within the local limits of whose jurisdiction the prison is situated, and such Magistrate after considering the report of the Superintendent may, by writing under his hand, declare that the person named in the order is unfit to be removed.

Notes

Section 6 of the Act authorises an Officer-In-Charge of prison to abstain from carrying out order under section 3 if the concerned prisoner is, in accordance with the rules made in this behalf, declared to be unfit for removal from prison. The rule prescribes the procedure for such declaration.

(2) Such certificate as aforesaid shall be *prima facie* evidence of the service of the process, and if the person to whom the process is directed requests that the copy shown and explained to him be sent to any other person and provides the cost of sending it by post, the Superintendent shall cause it to be so sent.

Provided that no prisoner escorted under these rules shall be admitted into a jail after sun-set, nor handed over to the escort before sun-rise.

15. *Custody when confined in lock-up.*—(1) If the prisoner is taken to a police lock-up, in which there are no other prisoners, the police in charge of the lock-up shall permit the prisoner escorted under these rules to occupy a ward in the lock up, the key of which shall be handed over to the escort and the prisoner shall be entirely under the charge of the escort as regards safe custody, supply of food, etc. On the departure of the escort with the prisoner, the key of the ward occupied shall be returned to the police in charge of the lock-up.

(2) Woman prisoners escorted by the police shall be provided with conveyance when the distance to be traversed by them exceeds one mile. Conveyance may also be provided for shorter distances in cases in which, for reasons of health or custom or other valid reason, failure to make such provision would cause undue hardship to them.

Jails Department.

Section 59 of the Prisons Act, 1894 authorises the State Government to make rules, consistent with the Act, for the appointment and guidance of visitors of prisons. These rules have been framed in exercise of powers so conferred.

The following rules for the appointment and guidance of official visitors of prisons within the United State of Rajasthan shall come into force with immediate effect:—

1. *Ex-officio visitors.*—(a) Inspector-General of Hospitals, Inspector-General of Police, Director of Public Health, Deputy Inspector-General of Police (C.I.D.), Director of Industries shall be ex-officio visitors for all Jails and lock-ups in the United State of Rajasthan.

(b) Commissioners of Divisions and Sessions Judges are ex-officio visitors of the Jails and lock-ups, situated within their respective jurisdiction. Civil and Sessions Judges are ex-officio visitors of Jails in District where there is no Session Judge. The District Magistrate is an ex-officio visitor of the Central Jail situated within his jurisdiction. Deputy Inspector-General of Police, Sub-Divisional Magistrates, and Inspectors of Schools shall be ex-officio visitors of all Jails within their respective jurisdiction.

(c) The Senior Medical Officer in the District where he is not holding Medical Charge, shall be an ex-officio visitor of the Jails and lock-ups in his District except in the case of Central Jails where a suitable officer will be nominated by the Commissioner of the Division.

2. *Visits by official visitors.*—The following minimum number of visits shall be paid by official visitors in the year:

Central Jails:

- (1) By Commissioners and Judges three visits;
- (2) By District Magistrates one visit every month,

District Jails and Lock-ups:

- (1) *Jails and lock-ups at the headquarter of the Commissioner and the Judges.*—Three visits shall be paid by each officer to each Jail and lock-up.
- (2) *At the other places.*—The Jails and lock-ups shall be visited by the Commissioner and Judges when these officers visit the stations in which they are situated.

Note.—The District Magistrate will visit the Central and District Jails at least once a month. At each visit he shall make a careful inspection of the undertrial prisoners and prepare a list of all undertrial prisoners who have been in the lock-up

for unduly long period. Thereafter he shall issue such orders as may appear necessary for the expeditious disposal of their cases. Every alternate month he shall go round the whole Jail. Dates of these visits shall be recorded in the visitor's book together with any order, remarks, or suggestions made: provided that if in any special case the District Magistrate considers it expedient he may communicate separately with the Superintendent on any matter arising out of his visit. In any month during which the District Magistrate is away from headquarters he shall depute the Magistrate incharge to visit the Jail in his stead.

3. *Board's meeting and additional visit by visitor.*—A meeting of the Board of Visitors shall be held once a quarter. At the first meeting in the calendar year a roster of visits shall be prepared for the ensuing twelve months. This roster will permit of a monthly visit being made to each Jail by visitors. Should any visitor desire to pay more than one such visit, he shall be required to obtain the special permission of the Superintendent. All visits shall be made between the hours of opening and 2.00 P.M. Visits will not be permitted on Sundays and on other holidays except between 8.00 and 10.00 A.M.

Note.—Except in exceptional circumstances, a visitor shall not inspect Jails after lock-up or on Sundays or other Holidays.

4 *Visitors to be accompanied by Jail Officer and an escort.*—The Superintendent shall arrange that every visitor to the Jail shall be accompanied by a responsible Jail officer and by an escort which shall consist, at Central Prisons, of two Warders, and at District Jail, of one Warder armed with batons.

5. *Names of visitors to be displayed.*—The Superintendent shall have a board hung up at the Jail gate on which the names of all Jail visitors shall be noted and no persons other than those authorised to visit a Jail or lock-up shall be allowed to visit.

6. *Duties of visitors.*—(a) It is the duty of a visitor to satisfy himself that the law and rules regulating the management of prison and prisoners are duly carried out in the Jail, to visit all parts of the Jail and to see all prisoners, and to hear and enquire into any complaints that any prisoner may make to him. He may for this purpose talk to any prisoner out of the hearing but in the full sight of the officer accompanying him. Such conversations with prisoners shall not exceed 20 minutes in all during a visit. A list of questions indicating some of the points to which a visitor may direct his enquiries is appended in last paragraph.

(b) A visitor may call for all books, papers and records other than those of a confidential nature, which are connected with the administration of any department of the prison.

(c) No visitor may issue any order or instruction to any subordinate Jail officer.

Rules for Appointment and Guidance of Official Visitors of Prisons. [3

(d) The officer accompanying every visitor shall inform him before entering the cook-house that no portion of the prisoner's ration shall be touched, but he can taste the food if he so desires.

7. *Inspection note by visitors.*—(a) There shall be only one visitor's book for the use of visitors. The book shall, on no account, be removed from the Jail premises.

(b) Every visitor shall, after he has completed his visit to the Jail, record in the visitor's book prescribed by section 12 of the Prisons Act, the date and hour of his visit, and may enter therein any remarks or suggestions he may wish to make with regard to the internal arrangements of the Jail or the state of discipline maintained therein. But when a visitor considers that the sanctioned system of the Jail Administration requires modification in any particular or has any suggestion to make on questions of policy, he shall refer his opinion separately to the Inspector-General and shall not discuss the subject in the visitor's book. Entries in the visitor's book shall be made in the visitor's own handwriting.

(c) The remarks recorded by the visitor in the visitor's book shall be treated as confidential and shall not be communicated to the prisoners or to any one outside the Jail. A visitor, so long as he retains his official connections with the Jail, is precluded from giving publicity in the press or otherwise to matters connected with its administration.

(d) Should there be any complaint which a prisoner may make to a visitor about his own treatment or that of any other prisoner or about the conduct of any officer, or should the visitor himself observe any matter of which he feels notice ought to be taken, he should refer it to the Superintendent who is responsible for everything that occurs in his Jail. It is open to the visitor if he so desires, to make a representation on the matter to the Government.

(e) The remarks recorded by a visitor in the visitor's book should include any complaint made to him by a prisoner which in his opinion deserves notice. When the Superintendent is of opinion that a prisoner has made a groundless complaint to a visitor and should be punished, he shall record a brief statement of the facts and note what punishment he proposed to award and send it to the visitors who, if he dissents from the conclusion of the Superintendent, may request that the case be submitted to the Inspector-General for orders. A Copy of the Inspector-General's order will be communicated to the visitor who may then, if he thinks fit, address Government regarding the case.

8. *Action on remarks of visitors.*—(a) The Superintendent shall at once forward a copy of the inspection notes recorded by visitors in the visitor's book, through the District Magistrate and the Commissioner of the Division to the Inspector-General who may, if in his opinion it is necessary, forward the correspondence for the

information and orders of the Government. A copy of the orders (if any) of Government or the Inspector-General shall be forwarded to the visitor through the Superintendent of the Jail.

(b) The Superintendent of Jail shall cause these orders to be copied into the visitor's book for information of the visitors.

9. *Permission to enter Jail for recording statement of prisoners.*—The Superintendent shall permit judicial and magisterial authorities and also any persons provided with a written order from the High Court, the Chief Court, District Magistrate, or Sessions Judge to enter the Jail for the purpose of recording the statement of any prisoner.

The District Magistrate may specially authorise any officer named by him in writing to interview any prisoner for the purpose of obtaining information which may lead to detection of crime.

10. *Visits by authorised persons.*—(a) A person other than a official person may visit a Jail if he has obtained the written permission of the Government of the United State of Rajasthan or is accompanied by or has obtained the written permission of the Inspector General, the Commissioner of the Division, the District Magistrate or the Superintendent. Visits by such persons may be made on any day between the hours of 7 and 11 A.M. This restriction, however, is not intended to prohibit the Superintendent from admitting persons whom he may wish to show round the Jail at any other time.

(b) *Officers of P.W.D. may enter Jail and during business hours.*—The Superintending Engineer of his circle and the Executive Engineers of the District in which the Jail is situated, together with their employees, shall, during business hours, have free access to the Jail to the extent necessary for purposes connected with the discharge of their official duties.

(c) *Admission of police officer to the Jail and interrogation of prisoners by them.*—Any police officer of not lower rank than a Deputy Superintendent shall, for any purpose connected with the discharge of his duties as such police officer, be permitted to enter the Jail at any time.

(d) Police officers of a lower rank than Deputy Superintendent who are in uniform and have been detailed for the duty shall be permitted to enter the Jail for the purpose of recognising old offenders, or for conducting operations for the identification of prisoners during work hours on any week day.

(e) No police officer shall be permitted to interview any prisoner except in so far as may be necessary for the identification of such prisoners without any order in writing from the District Magistrate of the District Superintendent of police, addressed to the Superintendent of Jail.

(f) Any interview permitted under an order from the District Magistrate or the District Superintendent of Police shall take place

in the presence of the Jailor or other proper officer of a Jail, who shall if required to do so keep at such a distance that he may not hear the conversation that takes place.

(g) The Superintendent of Jail shall, for the purpose of this rule, produce any prisoner in his charge whom the police are authorised to interview and shall afford every reasonable facility for this purpose.

(h) The Superintendent shall arrange that every visitor to the Jail shall be attended by two warders armed with batons.

CIRCULAR

Jaipur, February 14, 1961

No. F. 8 (1) Appts. (A)/IV/61.—Regulation 9 of the Rajasthan Public Service Commission (Limitation of Functions) Regulations, 1951, *Inter-alia* provides that it shall not be necessary for the Commission to be consulted when it is proposed to re-appoint a retired officer for a period not exceeding two years to a post, the duties of which are similar to those normally discharged by members of the service from which he retired. In other words, the Commission has got to be consulted when it is proposed to re-employ a retired officer on a post the duties of which are not similar to those normally discharged by the members of the service from which he retired, even though the period of re-employment does not exceed two years. It is difficult to define precisely the duties of each and every post under the control of the State Government and there may be cases where the appointing authorities may, inadvertently encroach upon the sphere of functions of the P.S.C. in this regard. It has, therefore, been decided that copies of Government orders re-employing retired officers under Regulation 9 (c) of the Rajasthan Public Service Commission (Limitation of Functions) Regulations, 1951 should be endorsed to the P.S.C. by the appointing authorities concerned. Where the nature of the duties to be performed by the officer is not clear from the designation of the post, a brief explanation of the nature of his duties should be added in the endorsement to the P.S.C.

R. D. THAPAR,

Special Secretary to the Government.
